

resubmission requirement, we estimate that approximately half of the third party conformity assessment bodies would be required to resubmit in any one year. As of March 2013, 409 third party conformity assessment bodies have been accepted by CPSC for testing. Approximately half (204) of these firms would be expected to resubmit with CPSC in any given year.

- Under the final rule, 16 CFR part 1112, third party conformity assessment bodies are required to keep the information submitted on CPSC Form 223 up to date and submit a new CPSC Form 223 whenever the information on the CPSC Form 223 changes. Based on current experience with third party conformity assessment bodies, CPSC staff estimates that third party conformity assessment bodies will make no more than three revisions per year to update applicable Form 223 information. A “change in information” is a change that does not require review of laboratory accreditation documents, such as scope or test methods. Examples of revised information include: changes in the Web site URL; changes in the name of the laboratory; and a change of the point of contact.

The total burden is estimated at 259.75 hours, which is rounded up to 260 hours. CPSC staff estimates that hourly compensation for the time required for recordkeeping is \$27.12 per hour (U.S. Bureau of Labor Statistics, “Employer Costs for Employee Compensation,” Table 9, total compensation for sales, office, and related workers in goods-producing industries: <http://www.bls.gov/ncs>). The total cost burden to the respondents is approximately \$7,052 ($\27.12×260 hours = \$7,051.20).

SUPPLEMENTARY INFORMATION:

Request for Renewal of Approval of Collections of Information. Based on previous experience, CPSC staff estimates completion of approximately 97 pool inspections per year under the Virginia Graeme Baker Pool and Spa Safety Act. Investigators typically interview pool owners or operators or staff at the time of the inspection. In addition, investigators collect drain cover and sump certification documents as part of the pool inspection. Inspection of a pool or spa facility under the Virginia Graeme Baker Pool and Spa Safety Act generally requires approximately three hours. The annual total testing burden hours for such

inspections thus are estimated at 291 (97 inspections \times 3 hours per inspection). We estimate that hourly compensation for the time required for testing is \$61.06 (U.S. Bureau of Labor Statistics, “Employer Costs for Employee Compensation,” December 2012, Table 9, total compensation for management, professional, and related workers in goods-producing industries: <http://www.bls.gov/ncs>). Accordingly, we estimate the annual cost to be \$17,768 ($\61.06×291).
