1. Program Discrimination Complaint—0960-0585. SSA collects information on Form SSA-437 to investigate and formally resolve complaints of discrimination based on disability, race, color, national origin (including limited English language proficiency), sex (including sexual orientation and gender identity), age, religion, or retaliation for having participated in a proceeding under this administrative complaint process in connection with an SSA program or activity. Individuals who believe SSA discriminated against them on any of the above bases may file a written

complaint of discrimination. SSA uses the information to (1) identify the complaint; (2) identify the alleged discriminatory act; (3) establish the date of such alleged action; (4) establish the identity of any individual(s) with information about the alleged discrimination; and (5) establish other relevant information that would assist in the investigation and resolution of the complaint. Respondents are individuals who believe an SSA program or activity, or SSA employees, contractors or agents discriminated against them.

TYPE OF REQUEST: REVISION OF AN OMB-APPROVED INFORMATION COLLECTION

2. Work Incentives Planning and Assistance Program—0960-0629. As part of SSA's strategy to assist Social Security Disability Insurance (SSDI) beneficiaries and Supplemental Security Income (SSI) recipients who wish to return to work and achieve self-sufficiency, SSA established the Work Incentives Planning and Assistance (WIPA) program. This community-based, work incentive, planning and assistance project collects identifying

claimant information via project sites and community work incentives coordinators (CWIC). SSA uses this information to ensure proper management of the project, with particular emphasis on administration, budgeting, and training. In addition, project sites and CWICs collect data from SSDI beneficiaries and SSI recipients on background employment, training, benefits, and work incentives. SSA is interested in identifying SSDI

beneficiary and SSI recipient outcomes under the WIPA program to determine the extent to which beneficiaries with disabilities and SSI recipients achieve their employment, financial, and health-care goals. SSA will also use the data in its analysis and future planning for SSDI and SSI programs. Respondents are SSDI beneficiaries, SSI recipients, community project sites, and employment advisors.
