

to pre-register by contacting Ms. Terri Joya at (202) 401-1282, by fax at (202) 401-1782 or by email to tjoya@nifa.usda.gov. Participants may reserve one 5-minute comment period. More time may be available, depending on the number of people wishing to make a presentation. Reservations will be confirmed on a first-come, first-served basis. All other participants may provide comments during the web-based listening session if time permits, or submit written comments. All written comments must be received by close of business July 30, 2013, to be considered. All comments and the official transcript of the meeting, when they become available, may be reviewed on the NIFA Web page, http://www.nifa.usda.gov/funding/afri/afri_listen_session.html for six months. Additional AFRI Program-specific web-based listening sessions may occur after July 16, 2013 to obtain public comments for use in developing other AFRI RFAs. Dates and times will be posted to the following URL: http://www.nifa.usda.gov/funding/afri/afri_faq_webinars.html.

Background and Purpose

Significant variations from the historical rate of water supply and availability are projected to have major impacts on agricultural, forest, and range production systems. The new water program area within AFRI will be coordinated with, and leverage, efforts in other AFRI challenge areas, such as the Food Security, Food Safety, Climate Variability and Change and Sustainable Bioenergy challenge areas, and help solve critical water resource problems in rural and agricultural watersheds across the United States. The program will focus on developing solutions for water management that link food, water, climate change, energy, and environmental issues. Funding will be used to develop and transfer management practices, technologies, and tools for farmers, ranchers, forest owners and managers, and citizens to improve water resource quantity and quality. NIFA's approach will link social, economic, and behavioral sciences with traditional biophysical sciences and engineering to address watershed- or aquifer-scale problems. NIFA has tentatively identified three critical topics that warrant immediate, comprehensive, and coordinated efforts in research, education, and extension. These three topics are: (1) Ensuring agricultural water security, addressing surface water, groundwater and reclaimed water needed to produce a wide array of agricultural goods and services now and into the future; (2) Improving nutrient management in

agricultural landscapes with focus on nitrogen and phosphorous; and (3) Reducing impacts of chemicals of emerging concern and the presence and movement of waterborne pathogens in the landscape. Information regarding the AFRI program can be found at <http://www.nifa.usda.gov/funding/afri/afri.html>. AFRI grants are authorized for FYs 2009-2013, of which the Secretary may retain no more than 4 percent for administrative costs. Grants will be awarded on the basis of merit, quality, and relevance and may have terms of up to 10 years. Subject to the availability of appropriations to carry out the research component of the AFRI program, the Secretary may award grants to State agricultural experiment stations; colleges and universities; university research foundations; other research institutions and organizations; Federal agencies; national laboratories; private organizations or corporations; individuals; or any group consisting of two or more of the aforementioned entities. The integrated component of the AFRI program, the Secretary may award grants to colleges and universities; 1994 Land-Grant Institutions; and Hispanic-serving agricultural colleges and universities.

Implementation Plans

NIFA plans to consider stakeholder input received from this web-based listening session as well as other written comments in developing the FY 2014 solicitations for this program.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Quarterly Survey of U.S. Direct Investment Abroad—Transactions of U.S. Reporter with Foreign Affiliate (Form BE-577), obtains quarterly data on transactions and positions between U.S.-owned foreign business enterprises and their U.S. parents. The survey is a sample survey that covers all foreign affiliates above a size-exemption level. The sample data are used to derive universe estimates in nonbenchmark years from similar data reported in the BE-10, Benchmark Survey of U.S. Direct Investment Abroad, which is conducted every five years. The data are used in the preparation of the U.S. international transactions accounts, the input-output accounts, the national income and product accounts, and the international investment position of the United States. The data are needed to measure the size and economic significance of direct investment abroad, measure changes in such investment, and assess its impact on the U.S. and foreign economies.

No changes to the survey forms or reporting requirements are proposed.

II. Method of Collection

Survey forms are sent to potential respondents each quarter; responses are due within 30 days after the close of each fiscal quarter, except for the final quarter of the fiscal year, when reports should be filed within 45 days. A report must be filed for every foreign business enterprise whose voting stock (or the equivalent) is owned 10 percent or more by a U.S. business enterprise and for which any one of the following three items was greater than \$60 million (positive or negative) at the end of, or for, the foreign business enterprise's

fiscal year: (1) Total assets, (2) annual sales or gross operating revenues excluding sales taxes, or (3) net income after provision for foreign income taxes.

As an alternative to filing paper forms, BEA offers an electronic filing option, the eFile system, for use in reporting on Form BE-577. For more information about eFile, go to www.bea.gov/efile.

Potential respondents are those U.S. parents that reported owning foreign business enterprises in the 2009 benchmark survey of U.S. direct investment abroad, along with entities that subsequently entered the direct investment universe. The data collected are sample data. Universe estimates are developed from the reported sample data.

III. Data

OMB Control Number: 0608-0004.

Form Number: BE-577.

Type of Review: Regular submission.

Affected Public: Businesses or other for-profit organizations.

Estimated Number of Respondents: 1,900 U.S. parents filing for 15,000 foreign affiliates per quarter; 60,000 annually.

Estimated Time per Response: 1 hour is the average, but may vary considerably among respondents because of differences in company structure and complexity.

Estimated Total Annual Burden Hours: 60,000.

Estimated Total Annual Cost to Public: \$0.

Respondent's Obligation: Mandatory.
Legal Authority: International Investment and Trade in Services Survey Act (Pub. L. 94-472, 22 U.S.C. 3101-3108, as amended by P.L. 98-573 and Pub. L. 101-533).

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection;

they also will become a matter of public record.

Dated: July 2, 2013.

Foreign-Trade Zones Board

[B-72-2013]

Foreign-Trade Zone 18—San Jose, California; Application for Reorganization (Expansion of Service Area) Under Alternative Site Framework

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by the City of San Jose, grantee of Foreign-Trade Zone 18, requesting authority to reorganize the zone to expand its service area under the alternative site framework (ASF) adopted by the FTZ Board (15 CFR 400.2(c)). The ASF is an option for grantees for the establishment or reorganization of zones and can permit significantly greater flexibility in the designation of new subzones or "usage-driven" FTZ sites for operators/users located within a grantee's "service area" in the context of the FTZ Board's standard 2,000-acre activation limit for a zone. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the FTZ Board (15 CFR part 400). It was formally docketed on July 1, 2013.

FTZ 18 was approved by the Board on November 27, 1974 (Board Order 103, 39 FR 42031, 12/04/1974) and reorganized under the ASF on July 23, 2012 (Board Order 1842, 77 FR 45334, 07/31/2012). The zone project currently has a service area that includes all of San Jose, California.

The applicant is now requesting authority to expand the service area of the zone to include all of Santa Clara County, the cities of Santa Cruz and Scotts Valley in Santa Cruz County and the cities of Fremont, Hayward, Newark and Union in City in Alameda County, California, as described in the application. If approved, the grantee would be able to serve sites throughout the expanded service area based on companies' needs for FTZ designation. The proposed expanded service area is adjacent to the San Jose U.S. Customs and Border Protection Ports of Entry.

In accordance with the FTZ Board's regulations, Christopher Kemp of the
