Title and OMB Control Number: "2013 Speak Up Survey," OMB Control Number: 0704-TBD.

Needs and Uses: The Speak-Up National Survey is an annual online survey created and administered by Project Tomorrow. DoDEA will participate in the survey in order to gather information from students and parents of students attending DoDEA schools on the use of technology in education throughout the United States. The survey provides data on how these groups are using and would like to use technology for learning in and out of school. Broad areas of information gathered via the surveys include: The benefits of using technology for learning; attitudes and interest in math and science, as well as career aspirations; how respondents self-assess their 21st century skills competencies. The information gathered via the surveys does not currently exist, especially in a format that allows comparisons between DoDEA and national trends. The data resulting from the survey will be used by DoDEA as a planning tool and needs assessment. The information from the survey as compared with national trends will be effective in assisting DoDEA in providing well-planned technology initiatives that meet the needs of our military-connected students and other stakeholders. The data will also be used to plan training and professional development for DoDEA employees, especially teachers, as it will accurately reflect the needs of teachers and other staff members alike. The data are essential to meet the President's charge in the recent technology-focused ConnectED initiative as well as the Presidential Study Directive 9: *Strengthening Military Families*, which states that "The Department of Defense commits to making DOD Education Activity (DODEA) schools a leader in the use of advanced learning technologies that have the potential to significantly improve student performance."

Affected Public: Individuals or households.

Annual Burden Hours: 431.

Number of Respondents: 1292.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The Project Tomorrow Speak-Up National Research Project will be open to all teachers, administrators, parents/sponsors of students attending a DoDEA school, as well as students in grades 3-12. The survey does not gather information that would personally identify individuals, and participation in the survey is completely voluntary. The survey is administered through an online, web-based technology. The questions will provide all stakeholders with the opportunity to provide input on their educational use of technology as well as their experience with technology at schools. The data will be incorporated into goals in DoDEA's currently in-process Technology Plan.

The survey results will be used at all levels of the organization to improve programs and services offered to DoDEA's students. The survey results will also be used as an outcome measure to monitor progress on the goals of the new Technology Plan.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

Abstract: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic

clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

Current Actions: Extension of a previous information collection for DoD's Interactive Customer Evaluation (ICE) system.

Type of Review: Extension.

Affected Public: Individuals or Households, Businesses or Other For-Profit.

Annual Estimates

Expected Annual Number of Activities/Collections: 30,000

Annual Number of Respondents: 322,570

Annual Number of Responses: 322,570

Frequency of Response: On Occasion
Average Burden per Response: 4 min.

Annual Burden Hours: 21505

3-Year Estimates: The 3-Year ceiling for this Generic Collection will be:

Total Expected Number of Activities/Collections: 34,500

Total Number of Respondents: 967,710

Total Number of Responses: 967,710
Frequency of Response: On Occasion

Average Burden per Response: 4 min.
Total Burden Hours: 64,514

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget Control Number.
