Supplemental Information: On May 2, 2013, NMFS published a proposed rule in the Federal Register (78 FR 25685) to implement provisions of the SCA that prohibit any person from removing any of the fins of a shark at sea, possessing shark fins on board a fishing vessel unless they are naturally attached to the corresponding carcass, landing shark fins unless they are naturally attached to the corresponding carcass, or landing shark carcasses without their fins naturally attached. NMFS proposes this action to amend existing regulations and make them consistent with the SCA.

Public Comment Extension

The public comment period for the proposed rule extends to July 8, 2013. NMFS is extending the public comment period for an additional 23 days until July 31, 2013. The extension of the comment period ensures that NMFS provides adequate time for stakeholders and members of the public to comment on the proposed rule to implement the provisions of the Shark Conservation Act of 2010.
