Notice of Availability of Environmental Assessment

BOST5 Hydroelectric LLC	Project No. 12758–004
BOST4 Hydroelectric LLC	Project No. 12757–004
BOST3 Hydroelectric LLC	Project No. 12756–003

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission or FERC) regulations, 18 Code of Federal Regulations (CFR), Part 380 (Order No. 486, 52 **Federal Register** 47897), the Office of Energy Projects has reviewed the applications for original licenses for the Red River Lock and Dam No. 5 Hydroelectric Project (FERC Project No. 12758–004), Red River Lock and Dam No. 4 Hydroelectric Project (FERC Project No. 12757–004), and Red River Lock and Dam No. 3 Hydroelectric Project (FERC Project No. 12756–003). The proposed projects would be located on the Red River in Louisiana. The Lock and Dam No. 5 Project would be located

in Bossier Parish, near the Town of Ninock, Louisiana, at the U.S. Army Corps of Engineers’ (Corps) Lock and Dam No. 5 at river mile (RM) 200 and would occupy 69.9 acres of federal lands managed by the Corps. The Lock and Dam No. 4 Project would be located in Red River Parish, near the Town of Coushatta, Louisiana, at the Corps’ Lock and Dam No. 4 at RM 168.5 and would occupy 135.1 acres of federal lands managed by the Corps. The Lock and Dam No. 3 Project would be located in Natchitoches Parish, near the Town of Colfax, Louisiana, at the Corps’ Lock and Dam No. 3 at RM 116.5 and would occupy 60.2 acres of federal lands managed by the Corps.

Staff prepared a multi-project environmental assessment (EA), which analyzes the potential environmental effects of licensing the three projects, and concludes that licensing the projects, with appropriate environmental protection measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

Notice of Availability of Environmental Assessment; Wisconsin Electric Power Company

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 Code of Federal Regulations Part 380, Commission staff has reviewed the application for

amendment of license for the Twin Falls Hydroelectric Project (FERC Project No. 11831) and has prepared an environmental assessment (EA) in cooperation with the U.S. Army Corps of Engineers. The project is located on the Menominee River near Iron Mountain, in Iron and Dickinson counties, Michigan, and Florence County, Wisconsin.

The EA contains the Commission staff's analysis of the potential environmental effects of decommissioning an existing powerhouse, constructing a new powerhouse and spillway, and making structural improvements to the dam, and concludes that authorizing the amendment, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at www.ferc.gov using the "eLibrary" link.
