DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA–2013–N–0370]

Agency Information Collection Activities; Submission for Office of Management and Budget Review; Comment Request; Export of Medical Devices; Foreign Letters of Approval

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a proposed collection of information has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995.

DATES: Fax written comments on the collection of information by August 8, 2013.

ADDRESSES: To ensure that comments on the information collection are received, OMB recommends that written comments be faxed to the Office of Information and Regulatory Affairs, OMB, Attn: FDA Desk Officer, FAX: 202–395–7285, or emailed to oira_submission@omb.eop.gov. All comments should be identified with the OMB control number 0910–0264. Also include the FDA docket number found in brackets in the heading of this document.

FOR FURTHER INFORMATION CONTACT: Daniel Gittleson, Office of Information Management, Food and Drug Administration, 1350 Piccard Dr., PI50–400B, Rockville, MD 20850, 301–796–5156, daniel.gittleson@fda.hhs.gov.

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Export of Medical Devices; Foreign Letters of Approval—(OMB Control Number 0910–0264)—Extension

Section 801(e)(2) of the Federal Food, Drug, and Cosmetic Act (the FD&C Act) (21 U.S.C. 381(e)(2)) provides for the exportation of an unapproved device under certain circumstances if the exportation is not contrary to the public health and safety and it has the approval of the foreign country to which it is intended for export. Requesters communicate (either directly or through a business associate in the foreign country) with a representative of the foreign government to which they seek exportation, and written authorization must be obtained from the appropriate office within the foreign government approving the importation of the medical device. An alternative to obtaining written authorization from the foreign government is to accept a notarized certification from a responsible company official in the United States that the product is not in conflict with the foreign country’s laws. This certification must include a statement acknowledging that the responsible company official making the certification is subject to the provisions of 18 U.S.C. 1001. This statutory provision makes it a criminal offense to knowingly and willingly make a false or fraudulent statement, or make or use a false document, in any manner within the jurisdiction of a department or agency of the United States. The respondents to this collection of information are companies that seek to export medical devices. FDA’s estimate of the reporting burden is based on the experience of FDA’s medical device program personnel.

In the Federal Register of April 5, 2013 (78 FR 20660), FDA published a 60-day notice requesting public comment on the proposed collection of information. No comments were received.

FDA estimates the burden of this collection of information as follows:

1 There are no capital costs associated with this collection of information.
DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

Medical Device Reporting for Manufacturers; Draft Guidance for Industry and Food and Drug Administration Staff; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUPPLEMENTARY INFORMATION:

I. Background

The first Medical Device Reporting (MDR) regulation became effective December 13, 1984, with mandatory device-related adverse event reporting obligations for manufacturers and importers. FDA published “Medical Device Reporting Questions and Answers” as part of its Compliance Guidance Series in February 1988. Subsequent changes to the reporting requirements, including mandatory reporting by domestic distributors and device user facilities, resulted from amendments to the Federal Food Drug and Cosmetic Act (the FD&C Act) in 1990 and 1992.

The MDR regulation was revised significantly after the 1990 and 1992 amendments to the FD&C Act. The amended MDR regulation was published with significant revisions on December 11, 1995, and effective on July 31, 1996. FDA published a guidance document “Medical Device Reporting for Manufacturers” in March 1997 to clarify the changes to reporting requirements under the new regulation. The FD&C Act was further modified by amendments in 1997, 2002, and 2007, requiring further changes to the regulation. A plain language version of the MDR regulation was published on February 28, 2005, effective (in part) on July 13, 2005.

This draft guidance describes and explains the current FDA regulation that addresses reporting and recordkeeping requirements applicable to manufacturers of medical devices for certain device-related adverse events. This draft guidance is intended to update FDA’s policy and to further clarify FDA’s interpretations of the regulation requirements and, when final, will supersede the previous manufacturer guidances issued in 1988 and 1997. The draft guidance also provides answers to frequently asked questions and includes a section on common reporting errors.

II. Significance of Guidance

This draft guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the Agency’s current thinking on medical device reporting for manufacturers. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statute and regulations.

III. Electronic Access

Persons interested in obtaining a copy of the draft guidance may do so by using the Internet. A search capability for all Centers for Devices and Radiological Health guidance documents is available at http://www.fda.gov/MedicalDevices/DeviceRegulationandGuidance/GuidanceDocuments/default.htm. Guidance documents are also available at http://www.regulations.gov. To receive “Medical Device Reporting for Manufacturers,” you may either send an email request to dsnica@fda.hhs.gov to receive an electronic copy of the document or send a fax request to 301–847–8149 to receive a hard copy. Please use the document number 1828 to identify the guidance you are requesting.

IV. Paperwork Reduction Act of 1995

This draft guidance refers to previously approved collections of information found in FDA regulations. These collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). The collection of information in 21 CFR part 803 subparts A to E have been approved under OMB 0910–0437 (expires August 31, 2015), and the collection of information in 21 CFR 803.11 and 803.20 have been approved under OMB control number 0910–0291 (expires June 30, 2015).

V. Comments

Interested persons may submit either electronic comments regarding this document to http://www.regulations.gov or written comments to the Division of Dockets Management. It is necessary to send only one set of comments. Identify comments with the docket number found in brackets in the heading of this document. Received comments may be heard and considered.
