

Certification of Administrative Records for Judicial Review

9. Agencies should develop procedures for designating appropriate individuals, who may or may not be record custodians, to certify administrative records to the court in case of judicial review of agency action. Agency certifications should include an index of contents of the administrative record for judicial review.

Agency Record Policies and Guidance

10. Agencies should develop a general policy regarding treatment of protected or privileged materials, including indexing, in public rulemaking dockets and in certification of the administrative record for judicial review. Agencies should make this policy available to the public and should provide it to the Department of Justice, if the Department represents the agency in litigation.

11. Agencies that engage in informal rulemaking should issue guidance to aid personnel in implementing the above best practices. Agencies should make their guidance on informal rulemaking and administrative recordkeeping available to the public and should provide it to the Department of Justice, if the Department represents the agency in litigation. The level of detail and contents of such guidance will vary based on factors such as: The size of typical agency rulemaking records; institutional experience, or the lack thereof, with record compilation and informal rulemaking litigation; the need for consistency across agency components in the development and maintenance of rulemaking records; and agency resources. However, agencies should ensure that guidance addresses at least the following:

- (a) Essential components of the rulemaking record, public rulemaking docket, and the administrative record for judicial review;
- (b) appropriate exclusions from the rulemaking record, including guidance on whether and when to exclude materials such as personal notes or draft documents;
- (c) timing of compilation and indexing practices;
- (d) management and segregation of privileged materials, e.g., attorney work product or pre-decisional deliberative materials;
- (e) management and segregation of sensitive or protected materials, e.g., copyrighted, classified, protected personal, or confidential supervisory or business information;
- (f) policies and procedures, if any, for the protection of sensitive information submitted by the public during the process of rulemaking or otherwise contained in the rulemaking record;
- (g) preservation of rulemaking and administrative records and public rulemaking dockets;
- (h) certification of the administrative record for judicial review, including the process for identifying the appropriate certifying official; and
- (i) relevant capabilities and limitations of recordkeeping tools and technologies.

Judicial Review

12. A reviewing court should afford the administrative record for judicial review a presumption of regularity.

13. In appropriate circumstances, a reviewing court should permit or require supplementation or completion of the record on review. Supplementation or completion may be appropriate when the presumption of regularity has been rebutted, such as in cases where there is a strong showing that an agency has acted improperly or in bad faith or there are credible allegations that the administrative record for judicial review is incomplete.

SUPPLEMENTARY INFORMATION:

Title: Interstate Movement of Fruit From Hawaii.

OMB Number: 0579-0331.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. The regulations in 7 CFR part 318, State of Hawaii and Territories Quarantine Notices, prohibit or restrict the interstate movement of fruits, vegetables, and other products from Hawaii, Puerto Rico, the U.S. Virgin Islands, and Guam to the continental United States to prevent the spread of plant pests or noxious weeds.

In accordance with the regulations in § 318.13-26, breadfruit, jackfruit, fresh pods of cowpea and its relatives, dragon fruit, mangosteen, moringa pods, and melon must meet certain conditions for interstate movement from Hawaii into the continental United States. These conditions involve information collection activities, including certificates and limited permits.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.20 hours per response.

Respondents: Growers of breadfruit, jackfruit, fresh pods of cowpea and its relatives, dragon fruit, mangosteen, moringa pods, and melon in Hawaii.

Estimated annual number of respondents: 110.

Estimated annual number of responses per respondent: 24.76.

Estimated annual number of responses: 2,724.

Estimated total annual burden on respondents: 545 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 26th day of June 2013.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.
