impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle I, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Worthington Municipal Airport, Worthington, MN.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, “Environmental Impacts: Policies and Procedures,” paragraph 311a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

List of Subjects in 14 CFR Part 71

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9W, Airspace Designations and Reporting Points, dated August 8, 2012, and effective September 15, 2012, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface.

AGL\mn\text{E5 Worthington, MN [Amended]}

Worthington, Municipal Airport, MN

Lat. 43°39′18″ N., long. 95°34′45″ W.

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Worthington Municipal Airport, and within 2 miles each side of the 000° bearing from the airport extending from the 7-mile radius to 11.6 miles north of the airport, and within 2 miles each side of the 176° bearing from the airport extending from the 7-mile radius to 11.1 miles south of the airport.

Issued in Fort Worth, Texas, on June 24, 2013.

David P. Medina,
Manager, Operations Support Group, ATO Central Service Center.

14 CFR Part 71

RIN 2120–AA66

Modification of VOR Federal Airway V–345 in the Vicinity of Ashland, WI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies VHF Omnidirectional Range (VOR) Federal airway V–345 in the vicinity of Ashland, WI. The Ashland, WI, VOR Distance Measuring Equipment (VOR/DME) navigation aid, which forms the northern end point of the airway, has been out of service for over ten months and is scheduled to be decommissioned. The FAA is removing the portion of V–345 affected by the loss of service by the Ashland, WI, VOR/DME.

DATES: Effective date 0901 UTC, October 17, 2013.

The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

History

On March 26, 2013, the FAA published in the Federal Register a notice of proposed rulemaking (NPRM) to modify V–345 in the vicinity of Ashland, WI (78 FR 18271). Interested parties were invited to participate in this rulemaking effort by submitting written comments on this proposal to the FAA. No comments were received.

The Rule

The FAA is amending Title 14, Code of Federal Regulations (14 CFR) part 71 by modifying VOR Federal airway V–345 in the vicinity of Ashland, WI, due to the scheduled decommissioning of the Ashland, WI, VOR/DME. This action removes the airway segment between the Hayward, WI, VOR/DME and the Ashland, WI, VOR/DME navigation aids.

VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.9W signed August 8, 2012 and effective September 15, 2012, which is incorporated by reference in 14 CFR 71.1. The VOR Federal airway listed in this document would be subsequently published in the Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to
assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies a VOR Federal airway due to navigation aid infrastructure changes.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, Environmental Impacts; Policies and Procedures, paragraph 311a. This airspace action consists of a modification of an existing airway and is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the FAA Order 7400.9W, Airspace Designations and Reporting Points, dated August 8, 2012, and effective September 15, 2012, is amended as follows:

Paragraph 6010(a)—Domestic VOR Federal Airways

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[Docket No. USC–2013–0558]

RIN 1625–AA00

Safety zone; Ohio River, Mile 469.4–470.0; Bellevue, KY

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone for all waters of the Ohio River, surface to bottom, extending from Ohio River mile 469.4 to mile 470.0. This temporary safety zone is necessary to protect commercial and recreational vessels from fireworks fallout associated with the City of Bellevue Beach Park Concert fireworks display. During the period of enforcement, no vessels may be located within this Coast Guard regulated area and entry into this Coast Guard regulated area is prohibited unless specifically authorized by the Captain of the Port Ohio Valley or other designated representative.

DATES: This rule is effective from 10 a.m. to 10:45 p.m. on July 13, 2013.

ADDRESSES: Documents mentioned in this preamble are part of docket USC–2013–0558. To view documents mentioned in this preamble as being available in the docket, go to http://www.regulations.gov, type the docket number in the “SEARCH” box and click “SEARCH.” Click on Open Docket Folder on the line associated with this rulemaking. You may also visit the Docket Management Facility in Room W12–140 on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email Petty Officer Denise Buckingham, Marine Safety Detachment Cincinnati, Coast Guard; telephone 513–921–9033, email Denise.M.Buckingham@uscg.mil. If you have questions on viewing or submitting material to the docket, call Barbara Hairston, Program Manager, Docket Operations, telephone (202) 366–9826.

A. Regulatory History and Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because it is impracticable. The Coast Guard was made aware of this fireworks display on June 17, 2013. An NPRM is impracticable in the time remaining before the event. This display presents potential hazards associated with a fireworks display over or on the Ohio River and a safety zone is required to protect persons and property on or near the waterway during the display. Providing notice and comment through the NPRM process would be impracticable as it would delay this rule and the safety measures it provides.

For the same reasons, under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the Federal Register. Providing a full 30 days notice would be impracticable and would unnecessarily delay the effective date of this rule. Delaying the effective date would also be contrary to public interest since immediate action is necessary to protect persons and property from potential hazards associated with a fireworks display on the Ohio River.

B. Basis and Purpose

A fireworks display is planned to be held on the Ohio River in the vicinity of the City of Bellevue Beach Park on July 13, 2013. This display will feature fireworks being launched between miles 469.4 and 470.0 on the Ohio River at Bellevue, Kentucky. The Coast Guard determined that a safety zone is necessary to keep persons and property clear of any potential hazards associated with the launching of fireworks on or over the waterway.
