disclosing records in this system to the contractor’s employees, the Department may disclose the records to those employees who have received the appropriate level of security clearance from the Department. Before entering into such a contract, the Department will require the contractor to establish and maintain the safeguards required under the Privacy Act (5 U.S.C. 552a(m)) with respect to the records in the system.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:
None.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:
The Department maintains records on CD–ROM, and the contractor (American Institutes for Research) and subcontractor (Harvard University) maintain data for this system on computers and in hard copy.

RETRIEVABILITY:
Records in this system are indexed and retrieved by a unique random number assigned to each individual that is cross-referenced by the individual’s unique State- or district-assigned teacher or student ID on a separate list.

SAFEGUARDS:
All physical access to the Department’s site and to the sites of the Department’s contractor and subcontractor, where this system of records is maintained, is controlled and monitored by security personnel. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to Department and contract staff on a need-to-know basis and controls individual users’ ability to access and alter records within the system. The contractor and subcontractor will establish a similar set of procedures at their sites to ensure confidentiality of data. The contractor and subcontractor are required to ensure that print data identifying individuals are in files physically separated from other research data and that electronic files identifying individuals are separated from other electronic research data files. The contractor and subcontractor will maintain security of the complete set of all master data files and documentation. Access to individually identifying data will be strictly controlled. At each site, all print data will be kept in locked file cabinets during non-working hours and work on hardcopy data will take place in a single room, except for data entry. Physical security of electronic data will also be maintained. Security features that protect project data include: Password-protected accounts that authorize users to use the contractor’s system but to access only specific network directories and network software; user rights and directory and file attributes that limit those who can use particular directories and files and determine how they can use them; and additional security features that the network administrators will establish for projects as needed. The Department’s, contractor’s, and subcontractor’s employees who “maintain” (collect, maintain, use, or disseminate) data in this system must comply with the requirements of the Privacy Act and the confidentiality standards in section 183 of the ESRA (20 U.S.C. 9573).

RETENTION AND DISPOSAL:
These records are covered by a draft records schedule under development, ED 231 Research and Statistics Records. This schedule shall be submitted to the National Archives and Records Administration for review and approval when complete. Until such time as it is approved by NARA, no records shall be destroyed.

SYSTEM MANAGER AND ADDRESS:

NOTIFICATION PROCEDURE:
If you wish to determine whether a record exists regarding you in the system of records, contact the system manager at the address listed under SYSTEM MANAGER AND ADDRESS. Your request must meet the requirements of the Department’s Privacy Act regulations at 34 CFR 5b.5, including proof of identity.

RECORD ACCESS PROCEDURE:
If you wish to gain access to a record about you in this system of records, contact the system manager at the address listed under SYSTEM MANAGER AND ADDRESS. Your request must meet the requirements of the Department’s Privacy Act regulations at 34 CFR 5b.5, including proof of identity.

CONTESTING RECORD PROCEDURE:
If you wish to contest the content of a record regarding you in the system of records, contact the system manager at the address listed under SYSTEM MANAGER AND ADDRESS. In addition, you must meet the requirements of the Department’s Privacy Act regulations at 34 CFR 5b.7, including, specification of the particular record you are seeking to have changed, and the written justification for making such a change.

RECORD SOURCE CATEGORIES:
This system will contain records on teachers and students included in the Impact Evaluation of Math Professional Development. Data will be obtained through study data collection from teachers and students, as well as administrative records maintained by school districts.

EXEMPTIONS CLAIMED FOR THE SYSTEM:
None.

ENVIRONMENTAL PROTECTION AGENCY
Proposed Information Collection Request; Comment Request; Performance Evaluation Studies on Wastewater Laboratories (Renewal); EPA ICR No. 0234.11, OMB Control No. 2080–0021

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency is planning to submit an information collection request (ICR), “Performance Evaluation Studies on Wastewater Laboratories” (EPA ICR No. 0234.11, OMB Control No. 2080–0021) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through January 31, 2014. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before September 10, 2013.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA–HQ–OECA–2013–0413, online using www.regulations.gov (our preferred method), by email to...
FOR FURTHER INFORMATION CONTACT:
Brian Krausz, Monitoring, Assistance, and Media Programs Division, Office of Compliance, (2227A), Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460; telephone number: (202) 564–3069; fax number: (202) 564–0038; email address: Krausz.Brian@epa.gov.

SUPPLEMENTARY INFORMATION:
Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Avenue NW., Washington, DC The telephone number for the Docket Center is (202) 566–1744. For additional information about EPA’s public docket, visit http://www.epa.gov/dockets.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another Federal Register notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Discharge Monitoring Report-Quality Assurance (DMR–QA) study program participation is mandatory for major and selected minor National Pollution Discharge Elimination System (NPDES) permit holders in accordance with Clean Water Act Section 308. The DMR–QA study program is designed to evaluate the analytic ability of the laboratories that perform chemical, microbiological and whole effluent toxicity (WET) analyses required in the NPDES permits for reporting results in the Discharge Monitoring Reports (DMR). Under DMR–QA, the permit holder is responsible: for having their in-house and/or contract laboratories perform proficiency test samples and submit results for grading by proficiency testing (PT) providers. Graded results are transmitted by either the permittee or PT provider to the appropriate federal or state NPDES regulatory authority. Permit holders are responsible for submitting corrective action reports to the appropriate regulatory authority.

Form Numbers: EPA Form 6400–01.

Respondents/Affected Entities: Major and selected minor permit holders under the Clean Water Act’s National Pollution Discharge Elimination System (NPDES).

Respondent’s Obligation to Respond: Mandatory under Clean Water Act Section 308(a)

Estimated Number of Respondents: 5,509 (total).

Frequency of Response: Major permit holders must participate annually. Minor permit holders must participate if selected by the state or EPA DMR–QA coordinator.

Total Estimated Burden: 36,361 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total Estimated Cost: $4,176,263 (per year), includes $2,376,638 annualized capital or operation & maintenance costs.

Changes in Estimates: There is a decrease of 5,150 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease in burden hours can be attributed to a number of states obtaining full or partial waivers from this activity through agreements with the EPA. Labor costs were revised upward to take into account employee benefit compensation costs and inflation. Non-labor costs for obtaining proficiency test samples increased because of an update to the list of most commonly used analytes coupled with inflation.
