419, 33 U.S.C. 601) includes the following provisions as to the administration of the headwater reservoirs:

And it shall be the duty of the Secretary of War to prescribe such rules and regulations in respect to the use and administration of said reservoirs as, in his judgment, the public interest and necessity may require; which rules and regulations shall be posted in some conspicuous place or places for the information of the public. And any person knowingly and willfully violating such rules and regulations shall be liable to a fine not exceeding five hundred dollars, or imprisonment not exceeding six months, the same to be enforced by prosecution in any district court of the United States within whose territorial jurisdiction such offense may have been committed.

(c) Previous regulations now revoked. In accordance with the above act, the Secretary of War prescribed regulations for the use and administration of the reservoirs at the headwaters of the Mississippi River under date of February 11, 1931, which together with all subsequent amendments are hereby revoked and the following substituted therefor.

49 CFR 12.375(d)

(d) Authority of officer in charge of the reservoirs. The accumulation of water in, and discharge of water from the reservoirs, including that from one reservoir to another, shall be under the direction of the U.S. District Engineer, St. Paul, Minnesota, and of his authorized agents subject to the following restrictions and considerations:

(1) Notwithstanding any other provision of this section, the discharge from any reservoir may be varied at any time as required to permit inspection of, or repairs to, the dams, dikes or their appurtenances, or to prevent damage to lands or structures above or below the dams.

(2) During the season of navigation on the upper Mississippi River, the volume of water discharged from the reservoirs shall be so regulated by the officer in charge as to maintain as nearly as practicable, until navigation closes, a sufficient stage of water in the navigable reaches of the upper Mississippi and in those of any tributary thereto that may be navigated and on which a reservoir is located.

(e) Passage of logs and other floating bodies. Logs and other floating bodies may be sluiced or locked through the dams, but prior authority for the sluicing of logs must be obtained from the District Engineer when this operation necessitates a material change in discharge.

(f) Obstructions to flow of water. No person shall place floating bodies in a stream or pond above or below a reservoir dam when, in the opinion of the officer in charge, such act would prevent the necessary flow of water to or from such dam, or in any way injure the dam and its appurtenances, its dikes and embankments; and should floating bodies lying above or below a dam constitute at any time an obstruction or menace as before said, the owners of said floating bodies will be required to remove them immediately.

(g) Trespass. No one shall trespass on any reservoir dam, dike, embankment or upon any property pertaining thereto.

[WC Docket No. 12–375; DA 13–1445]

More Data Sought on Extra Fees Levied on Inmate Calling Services

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: In this document, the Wireline Competition Bureau (Bureau) seeks additional comment on certain fees related to inmate calling services (ICS). The record to date indicates that ICS providers may charge ICS account holders fees that appear ancillary to the provision of ICS, including call blocking, labor, maintenance, enhancements (such as monitoring and call blocking), labor, maintenance, and interconnection fees.

DATES: Comments due on or before July 17, 2013; reply comments due on or before July 24, 2013.

The Bureau requests that parties provide data and information about such fees. Specifically, we request that parties identify any ancillary ICS fees that ICS providers charge in connection with the provision of interstate ICS, the level of each fee, the total amount of revenue received from each fee, and the cost of providing the service for which the fee recovers. We also request that parties identify any portion of ancillary service costs that are shared or common to the provision of other services, and explain how these costs, and recovery of them, are apportioned among the services to which they are shared or common. To evaluate how costs associated with providing ancillary services relate to ICS providers’ overall costs, we request that costs that are shared or common to the provision of ancillary ICS services be identified, and that parties explain how such costs are apportioned to and recovered by ICS rates. Providers submitting joint and common costs are requested to provide both per-minute rates and fixed charges associated with interstate ICS and intrastate ICS and information on the costs of providing ICS, including but not limited to Customer Premise Equipment or CPE, installation, specific security enhancements (such as monitoring and call blocking), labor, maintenance, interconnection fees, and any other cost recovered by ICS rates. In addition to per-minute or incremental costs, we
seek information on fixed costs, including recovered and unrecovered costs, historic and projected demand, and information on how such costs are recovered.

AGENCY: Federal Communications Commission.
ACTION: Proposed rule.
SUMMARY: The Audio Division, on its own motion, proposes the deletion of six vacant allotments in various communities in Alaska, Colorado, and Texas. We tentatively conclude that it is in the public interest to delete six FCC-held permits that have been offered in two FM auctions. No bids were entered for these allotments in the recently completed FM Auction 94 and these allotments are now considered unsold permits. Deletion of these allotments may create other opportunities in nearby communities for new FM allotments or upgrades of existing stations. Therefore, we believe that the proposed deletion of these vacant allotments may promote a more effective and efficient use of the FM broadcast spectrum. Interested parties must provide an explanation as to why they did not participate in prior auction events for any permit in which an interest is expressed.
DATES: Comments must be filed on or before August 5, 2013, and reply comments on or before August 20, 2013.
ADDRESSES: Secretary, Federal Communications Commission, 445 Twelfth Street SW., Washington, DC 20554.
FURTHER INFORMATION CONTACT: Rolanda F. Smith, Media Bureau, (202) 418–2700.
Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.
Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all ex parte contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible ex parte contacts. For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.
