

Respondents: Business or other for profit, and/or not for profit institutions.
Frequency of Responses: On occasion.
Necessity of the Information: Reliability Standard EOP-004-2 satisfies certain prior directives of the Commission, including a requirement to provide further guidance and specificity about reportable incidents of sabotage. The revised Reliability Standard requires reporting of specified system disturbances and potential events of sabotage in a timely manner, thereby allowing NERC as the Electric Reliability Organization, governmental authorities and relevant electric industry entities the opportunity to react. The revised standard accordingly enhances reliability in real-time through the opportunity to mitigate the impact of a disturbance, and in the future through investigation, analysis, and dissemination of lessons learned.

30. Interested persons may obtain information on the reporting requirements by contacting: Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426 [Attention: Ellen Brown, Office of the Executive Director, email: DataClearance@ferc.gov, Phone: (202) 502-8663, fax: (202) 273-0873].

VI. Effective Date

31. This order will become effective upon issuance.

The Commission orders:

(A) Reliability Standard EOP-004-2 is hereby approved as just, reasonable, not unduly discriminatory, and in the public interest.

(B) NERC's proposed Violation Risk Factors and Violation Severity Levels and implementation plan for Reliability Standard EOP-004-2 are hereby

approved, including the retirement of existing Reliability Standards EOP-004-1 and CIP-001-2a when EOP-004-2 goes into effect.

Records Governing Off-the-Record Communications; Public Notice

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of prohibited and exempt off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the Commission, a copy of the communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part of the decisional record, the prohibited

off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. The communications listed are grouped chronologically, in ascending order.
