SUPPLEMENTARY INFORMATION: Section 8(a)(17) of the Small Business Act (Act), 15 U.S.C. 637(a)(17), and SBA’s implementing regulations require that recipients of Federal supply contracts set aside for small businesses, Service Disabled Veteran-Owned small businesses, Women-Owned Small Businesses, or Participants in SBA’s 8(a) Business Development Program provide the product of a small business manufacturer or processor, if the recipient is other than the actual manufacturer or processor of the product. This requirement is commonly referred to as the Nonmanufacturer Rule. 13 CFR 121.406(b), 125.15(c). Section 8(a)(17)(b)(iv) of the Act authorizes SBA to waive the Nonmanufacturer Rule for any “product or class” for which there are no small business manufacturers or processors available to participate in the Federal market.

In order to be considered available to participate in the Federal market for a product or class of products, a small business manufacturer must have submitted a proposal for a contract solicitation or received a contract from the Federal Government within the last 24 months. 13 CFR121.1202(c). SBA defines “class of product or products” based on the specific item descriptions found in the Office of Management and Budget’s North American Industry Classification System (NAICS) online manual. SBA may then identify a specific item or items within a NAICS code to which a class waiver would apply.

SBA is currently processing a request to rescind the Nonmanufacturer Rule for All Other Miscellaneous Electrical Equipment and Component Manufacturing, under North American Industry Classification System (NAICS) code 335999. The public is invited to comment or provide source information to SBA on the proposed waiver of the Nonmanufacturer Rule for the within 15 days after the date of posting in the Federal Register.

Dated: July 11, 2013.

Ajoy K. Sinah, Deputy Director, Office of Government Contracting.
