ii. National Security and Foreign Policy Implications

This waiver does not have an impact on any national security or foreign policy interests of the United States. Scaled's launch operations will take place within the United States and within a specifically defined area that is used for military operations.

iii. Public Interest

The FAA finds that granting this waiver is in the public interest. The Commercial Space Launch Act provides that the United States should encourage private sector launches, reentries, and associated services. Additionally, Congress established Chapter 509 to promote economic growth and entrepreneurial activity through use of the space environment for peaceful purposes.

This waiver is consistent with the public interest goals of Chapter 509. The SS2 test flights will stimulate economic growth, spur technological developments and create aerospace business opportunities such as carrying scientific payloads and space tourists on trips to the edge of space and back. The FAA finds that granting this waiver is in the public interest because the SS2 flights further the purposes Congress articulated for Chapter 509.

Issued in Washington, DC on July 9, 2013.

George C. Nield,
Associate Administrator for Commercial Space Transportation.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Membership Availability in the National Parks Overflights Advisory Group Aviation Rulemaking Committee

ACTION: Notice.

SUMMARY: The National Park Service (NPS) and the Federal Aviation Administration (FAA), as required by the National Parks Air Tour Management Act of 2000, established the National Parks Overflights Advisory Group (NPOAG) in March 2001. The NPOAG was formed to provide continuing advice and counsel with respect to commercial air tour operations over and near national parks. This notice informs the public of two vacancies on the NPOAG (now the NPOAG Aviation Rulemaking Committee (ARC)). Persons interested in serving on the NPOAG ARC should contact Mr. Keith Lusk in writing and postmarked or emailed on or before August 16, 2013.

FOR FURTHER INFORMATION CONTACT:

Keith Lusk, AWP–15P, Special Programs Staff, Federal Aviation Administration, Western-Pacific Region Headquarters, P.O. Box 92007, Los Angeles, CA 90009–2007, telephone: (310) 725–3808, email: Keith.Lusk@faa.gov.

SUPPLEMENTARY INFORMATION:

Background

The National Parks Air Tour Management Act of 2000 (the Act) was enacted on April 5, 2000, as Public Law 106–181. The Act required the establishment of the advisory group within 1 year after its enactment. The advisory group was established in March 2001, and is comprised of a balanced group of representatives of general aviation, commercial air tour operations, environmental concerns, and Native American tribes. The Administrator of the FAA and the Director of NPS (or their designees) serve as ex officio members of the group. Representatives of the Administrator and Director serve alternating 1-year terms as chairman of the advisory group.

The advisory group provides “advice, information, and recommendations to the Administrator and the Director—

(1) On the implementation of this title [the Act] and the amendments made by this title;

(2) On commonly accepted quiet aircraft technology for use in commercial air tour operations over a national park or tribal lands, which will receive preferential treatment in a given air tour management plan;

(3) On other measures that might be taken to accommodate the interests of visitors to national parks; and

(4) At the request of the Administrator and the Director, on environmental, and other issues related to commercial air tour operations over a national park or tribal lands.”

Members of the advisory group may be allowed certain travel expenses as authorized by section 5703 of Title 5, United States Code, for intermittent Government service.

By FAA Order No. 1110–138, signed by the FAA Administrator on October 10, 2003, the NPOAG became an Aviation Rulemaking Committee (ARC). FAA Order No. 1110–138, was amended and became effective as FAA Order No. 1110–138A, on January 20, 2006.

The current NPOAG ARC is made up of one member representing general aviation, three members representing the commercial air tour industry, four members representing environmental concerns, and two members representing Native American tribal concerns. Current members of the NPOAG ARC are: Heidi Williams representing general aviation; Alan Stephen, and Mark Francis representing commercial air tour concerns; Michael Sutton, Gregory Miller, and Dick Hingson representing environmental interests; Rory Majenty and Martin Begaye, representing Native American tribes.

In order to retain balance within the NPOAG ARC, the FAA and NPS invite persons interested in serving on the ARC to represent commercial air tour operators and environmental concerns to contact Mr. Keith Lusk (contact information is written above in FOR FURTHER INFORMATION CONTACT).

Requests to serve on the ARC must be made to Mr. Lusk in writing and postmarked or emailed on or before August 16, 2013. The request should indicate whether or not you are a member of an association or group representing commercial air tours or environmental concerns, or have another affiliation with issues relating to aircraft flights over national parks. The request should also state what expertise you would bring to the NPOAG ARC as related to the vacancy you are seeking to fill (e.g., environmental concerns). The term of service for NPOAG ARC members is 3 years.

On June 18, 2010, President Obama signed a Presidential Memorandum directing agencies in the Executive Branch not to appoint or re-appoint federally registered lobbyists to advisory committees and other boards and commissions. Therefore, before appointing an applicant to serve on the NPOAG, the FAA and NPS will require the prospective candidate to certify that they are not a federally registered lobbyist.

Issued in Hawthorne, CA, on July 11, 2013.

Keith Lusk,
Program Manager, Special Programs Staff, Western-Pacific Region.
