

actions are usually the result of the notification required by this information requirement. The number of responses per respondent (15.96999) was derived by dividing the number of actions by the number of unique vendors. The preciseness of the number of responses demonstrates the level of review and the serious consideration given to the data gathered for this information collection. However, in response to the public comment received, the number of responses per respondent has been rounded up to 16.

With regard to the estimate of 0.5 hours per response, we believe that the notification typically involves an observation of the contractors accounting and financial reporting system that available funds will fall below the 75 percent threshold within the next 60 days, followed by a very brief letter to the contracting officer referencing the applicable contract clause at FAR 52.232–20 or FAR 52.232–22. The contractor's responsibility to foresee the availability of funds and probable cost overruns carries with it a duty to maintain an accounting and financial reporting system capable of securing timely knowledge of all probable costs before they are incurred. This information collection does not require contractors to create or maintain any record or system that the contractor does not maintain in its ordinary course of business. Therefore, the estimated burden hour per response of 30 minutes for this collection of information is valid. However, the rounding of the annual number of responses per respondent from 15.96999 to 16, based upon consideration of the information provided by the respondent, resulted in a revision to the information collection requirement to reflect an overall increase in the total public burden hours.

C. Annual Reporting Burden

Federal Acquisition Regulation; Submission for OMB Review; Bankruptcy (FAR Subpart 42.9; 52.242-13)

AGENCY: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice of request for comments regarding the extension of a previously existing OMB clearance.

SUMMARY: Under the provisions of the Paperwork Reduction Act, Regulatory Secretariat will be submitting to the Office of Management and Budget (OMB) a request to review and approve an extension of a previously approved information collection requirement concerning Bankruptcy. A notice was published in the **Federal Register** at 77 FR 73660, December 11, 2012. No comments were received.

DATES: Submit comments on or before August 19, 2013.

ADDRESSES: Submit comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: General Services Administration, FAR Desk Officer, OMB, Room 10102, NEOB, Washington, DC 20503. Please cite OMB Control No. 9000-0108, Bankruptcy, in all correspondence.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Toxic Substances and Disease Registry

[Docket No. ATSDR-2013-0002]

Proposed Substances To Be Evaluated for Set 27 Toxicological Profiles

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), Department of Health and Human Services (HHS).

ACTION: Request for comments on the proposed substances to be evaluated for Set 27 toxicological profiles.

SUMMARY: The Agency for Toxic Substances and Disease Registry (ATSDR) within the Department of Health and Human Services (HHS) is initiating the development of its 27th set of toxicological profiles (CERCLA Set 27). This notice announces the list of proposed substances that will be evaluated for Comprehensive Environmental Response Compensation and Liability Act (CERCLA) Set 27 toxicological profile development. ATSDR's Division of Toxicology and Human Health Sciences is soliciting public nominations from the list of proposed substances to be evaluated for toxicological profile development. ATSDR also will consider the nomination of any additional, non-CERCLA substances that may have

public health implications, on the basis of ATSDR's authority to prepare toxicological profiles for substances not found at sites on the National Priorities List. The agency will do so in order to "...establish and maintain inventory of literature, research, and studies on the health effects of toxic substances" under CERCLA Section 104(i)(1)(B), to respond to requests for consultation under section 104(i)(4), and to support the site-specific response actions conducted by ATSDR, as otherwise necessary.

DATES: Nominations from the Substance Priority List and/or additional substances must be submitted on or before August 19, 2013.

ADDRESSES: You may submit nominations, identified by Docket No. ATSDR-2013-0002, by any of the following methods:

**Internet:* Access the Federal eRulemaking portal at <http://www.regulations.gov>. Follow the instructions for submitting comments.

**Mail:* Division of Toxicology and Human Health Sciences, 1600 Clifton Rd. NE., MS F-57, Atlanta, Ga., 30333
Instructions: All submissions must include the agency name and docket number for this notice. All relevant comments will be posted without change. This means that no confidential business information or other confidential information should be submitted in response to this notice. Refer to the section *Submission of Nominations* (below) for the specific information required.

FOR FURTHER INFORMATION CONTACT: For further information, please contact Commander Jessilyn B. Taylor, Division of Toxicology and Human Health Sciences, 1600 Clifton Rd. NE., MS F-57, Atlanta, Ga., 30333, Email: tpcandidatecomments@cdc.gov; phone: 1-800-232-4636.

SUPPLEMENTARY INFORMATION: The Superfund Amendments and Reauthorization Act of 1986 (SARA) [42 U.S.C. 9601 *et seq.*] amended the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA or Superfund) [42 U.S.C. 9601 *et seq.*] by establishing certain requirements for ATSDR and the U.S. Environmental Protection Agency (EPA) with regard to hazardous substances most commonly found at facilities on the CERCLA National Priorities List (NPL). Among these statutory requirements is a mandate for the ATSDR Administrator to prepare toxicological profiles for each substance included on the Priority List of Hazardous Substances. This list identifies 275 hazardous substances that ATSDR and EPA have determined pose

the most significant current potential threat to human health. The availability of the revised list of the 275 priority substances was announced in the **Federal Register** on November 3, 2011 (76 FR 68193). For prior versions of the list of substances, see **Federal Register** notices dated April 17, 1987 (52 FR 12866); October 20, 1988 (53 FR 41280); October 26, 1989 (54 FR 43619); October 17, 1990 (55 FR 42067); October 17, 1991 (56 FR 52166); October 28, 1992 (57 FR 48801); February 28, 1994 (59 FR 9486); April 29, 1996 (61 FR 18744); November 17, 1997 (62 FR 61332); October 21, 1999 (64 FR 56792); October 25, 2001 (66 FR 54014), November 7, 2003 (68 FR 63098); December 7, 2005 (70 FR 70284); and March 6, 2008 (73 FR 12178).

Substances To Be Evaluated for Set 27 Toxicological Profiles

Each year, ATSDR develops a list of substances to be considered for toxicological profile development. The Set 27 nomination process includes consideration of all substances on ATSDR's Priority List of Hazardous Substances, also known as the Substance Priority List (SPL), as well as other substances nominated by the public. The 275 substances on the SPL will be considered for Set 27 Toxicological Profile development. This list may be found at the following Web site: www.atsdr.cdc.gov/SPL and in the docket at www.regulations.gov

Submission of Nominations for the Evaluation of Set 27 Proposed Substances: Today's notice invites voluntary public nominations for substances included on the SPL and for substances not listed on the SPL. All nominations should include the full name of the nominator, affiliation, email address. When nominating a non-SPL substance, please include the rationale for the nomination. Please note email addresses will not be posted on www.regulations.gov.

ATSDR will evaluate all data and information associated with nominated substances and will determine the final list of substances to be chosen for toxicological profile development. Substances will be chosen according to ATSDR's specific guidelines for selection. These guidelines can be found in the *Selection Criteria* announced in the **Federal Register** on May 7, 1993 (58FR27286-27287). A hard copy of the Selection Criteria is available upon request or may be accessed at: http://www.atsdr.cdc.gov/toxprofiles/guidance/criteria_for_selectingtpsupport.pdf.

Please ensure that your comments are submitted within the specified

nomination period. Nominations received after the closing date will be marked as late and may be considered only if time and resources permit.

Dated: July 11, 2013.

Sascha Chaney,

Acting Director, Office of Policy, Planning and Evaluation, National Center for Environmental Health/Agency for Toxic Substances and Disease Registry.
