

of the Refuge would continue to be closed to the public.

Under Alternative C, the Service would expand current management to protect listed and sensitive species, implement an IPM Plan to control invasive plants, and initiate a comprehensive restoration plan for an old agricultural site on the Refuge to restore creosote bush scrub habitat. In addition, the existing public outreach program would be expanded and interpretive signs would be installed along the existing trail corridor. Occasional guided tours of the Refuge would continue at current levels and public access would continue to be limited to the existing public trail corridor. All other areas within the Refuge would remain closed to the public.

Abstract: Conducting commercial operations in a unit of the National Park System without a contract, permit, commercial use authorization, or some other written agreement is prohibited. Section 418, Public Law 105–391 (16 U.S.C. 5966) gives the Secretary of the Interior the authority to authorize a private person, corporation, or other entity to provide services to visitors in units of the National Park System through a Commercial Use Authorization (CUA). Such authorizations are not considered concession contracts. We authorize commercial operations that originate and operate entirely within a park (in-park); commercial operations that provide services originating and terminating outside of the park boundaries; noncommercial organized children's camps, outdoor clubs, and nonprofit institutions; and other uses as the Secretary determines appropriate. The commercial operations include a range of services, such as mountain climbing guides, boat repair services, transportation services and tours, canoe livery operations, hunting guides, retail sales at festivals, fun runs, catering services, and dozens of other visitor services.

We collect information on the CUA application (Form 10–650), the CUA Annual Report (Form 10–660), and CUA Monthly Report (Form 10–660A). We use the information from these forms to:

- Manage the program and operations.
- Determine the qualifications and abilities of the commercial operators to provide a high quality, safe, and enjoyable experience for park visitors.
- Determine the impact on the parks natural and cultural resources.
- Manage the use and impact of multiple operators.

Comments: On April 11, 2011, we published in the **Federal Register** (76 FR 2007) a notice requesting public comment on this information collection. The comment period ended on June 10, 2011. We received one comment in response to this notice. The commenter did not address the information

collection requirements, but stated that the Government should be transparent and that CUA holders and fees should be posted on the Internet. Each park issuing CUAs publishes the holder's contact information, the service(s) provided, and fee information on the park Web site. We did not make any changes to our information collection based on this comment.

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.

Dated: July 17, 2013.
