8. Taking of Private Property
   This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform
   This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children From Environmental Health Risks
   We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

11. Indian Tribal Governments
   This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects
   This proposed rule is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards
   This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment
   We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves disestablishing two unused anchorage grounds, establishing one anchorage ground, updates the coordinates of one anchorage ground, and reduces the size of one anchorage ground resulting in a reduction in the overall size of the anchorage grounds by 7.28 square nautical miles in the Captain of the Port New York zone. This rule may be categorically excluded from further review under paragraph 34(f) of Figure 2–1 of the Commandant Instruction. A preliminary environmental analysis checklist is available in the docket where indicated under ADDRESSES. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

**SUPPLEMENTARY INFORMATION:**

**Background**

On June 28, 2013, NMFS published a proposed rule at 78 FR 39122, that would implement a catch sharing plan for the guided sport and commercial fisheries for Pacific halibut in waters of IPHC Regulatory Areas 2C (Southeast Alaska) and 3A (Central Gulf of Alaska). The proposed catch sharing plan will change the annual process of allocating halibut between the guided sport and commercial fisheries in Area 2C and Area 3A, establish allocations for each sector, and specify a method for setting harvest restrictions for guided sport anglers that are intended to limit harvest to the annual guided sport fishery catch limit. The proposed catch sharing plan also will authorize annual transfers of commercial halibut quota to charter halibut permit holders for harvest in the guided sport fishery.

**Public Comment Extension**

NMFS is extending the public comment period until August 26, 2013. NMFS received several requests to extend the comment period on the proposed rule due to overlap with the recreational halibut fishing season and the complexity of the proposed catch sharing plan. Most commenters requested a 45-day extension. We have considered these comments and conclude that a 14-day extension should allow sufficient time for the public to review and comment on the proposed rule without significantly delaying the rulemaking process.

**Authority:** 16 U.S.C. 1801 et seq.

Dated: July 22, 2013.

Alan D. Risenhoover,
Director, Office of Sustainable Fisheries, performing the functions and duties of the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.
