

and based on the nature of the service and the inventory of the licenses being offered, and so, the Bureau seeks comment on an appropriate additional default payment percentage in the event it does not conduct Auction 96 with package bidding procedures. Defaults weaken the integrity of the auction process and may impede the deployment of service to the public, and an additional default payment of up to twenty percent will be more effective in deterring defaults than the three percent used in some earlier auctions. At the same time, the Bureau does not believe the detrimental effects of any defaults in Auction 96 are likely to be unusually great. Balancing these considerations, the Bureau proposes to establish an additional default payment for Auction 96 of fifteen percent of the applicable bid. The Bureau seeks comment on this proposal.
