Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the General Provisions specified at 40 CFR part 63, subpart III. Owners or operators of the affected facilities must submit initial notification, performance tests, and periodic reports, and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required semiannually at a minimum.

Form Numbers: None.

Respondents/affected entities: Owners or operators of automobile and light-duty truck surface coating facilities.

Respondent’s obligation to respond: mandatory (40 CFR part 63, subpart III).

Estimated number of respondents: 65 (total).

Frequency of response: Initially and semiannually.

Total estimated burden: 26,685 hours (per year). “Burden” is defined at 5 CFR 1320.3(b).

Total estimated cost: \$2,688,147 (per year), includes \$78,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase in respondent labor hours from the previous ICR. This is not due to any program changes. The increase is due to a mathematical correction in the per-respondent technical labor hours. Additionally, there is also an increase in the respondent and Agency costs due to use of updated labor rates. This ICR references recent labor rates from the Bureau of Labor Statistics to calculate respondent burden costs, and references recent labor rates from OPM to calculate Agency burden costs.

Abstract: EPA would like to continue to collect annual compliance reports from obligated parties, quarterly reports for all EPA Moderated Transaction System (EMTS) users, generation and assignment of Renewable Identification Numbers (RINs) quarterly reports from biofuels producers and importers, and third party disclosure reports from biofuel feedstock producers by way of the Agency's Central Data Exchange (CDX). The recordkeeping and reporting will allow EPA to monitor compliance with the RFS program. EPA informs respondents that they may assert claims of business confidentiality for information they submit in accordance with 40 CFR 2.203.

Waiver Credit Form); 5900-296 (RFS0303—RFS2 Annual Compliance Report).

Respondents/affected entities: Producers of renewable fuels, Importers, Obligated party, Parties who own RINs and Foreign Refiners.

Respondent's obligation to respond: Mandatory (42 U.S.C. 7414 and 7542).

Estimated number of respondents: 2,092,731 (total).

Frequency of response: Annually, Quarterly & Daily.

Total estimated burden: 608,220 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$69,337,137 (per year), which includes no annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 812,913 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to adjustments to the estimates. At the onset of the RFS2 program, EMTS for RINs were not a feature of RFS1. For the new EMTS system, all parties who owned RINs were required to re-submit their application, disclose feedstock sources, prepare quarterly reports on RIN activity and submit annual compliance reports (obligated party only). Re-submittal provisions are no longer required, which will cause a decrease in total responses for this ICR. EMTS users will not be burdened to submit more reports in this information collection, unlike the previous. The total responses for industry decreased now that the final rule is no longer requiring re-submissions or quarterly reports for certain party members. To date, biofuels producers and importers are required to submit quarterly reports along with their third party disclosure on feedstock producers to EPA. All users of the EMTS system are required to submit quarterly RIN reports.

The number of respondents or users of the EMTS system has more than doubled due to the additional response burden for mapping foreign and domestic plantation/forest land owners and foreign biofuels feedstock producers, which was not reflected in the previous ICR reporting period. With an increase of respondents, total burden hours have decreased from 1,421,133 to 608,220 hours. The reduction is due to the fact that the EMTS system's automation structure helps users to prepare reports instantly, lessening the amount of time and cost needed to

respond, even with more than a million added users.

Clean Water Act: Availability of List Decisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of EPA's Responsiveness Summary Concerning EPA's May 9, 2013 Public Notice of Proposed Decisions To Add Waters and Pollutants to Louisiana's 2012 Section 303(d) List.

On May 9, 2013 EPA published a notice in the **Federal Register** at Volume 78, Number 90, pages 27233-27234 providing the public the opportunity to review its decision to partially approve and proposal to partially disapprove Louisiana's 2012 Section 303(d) List. Specifically, EPA approved Louisiana's listing of 323 waterbody pollutant combinations, and associated priority rankings. EPA proposed to disapprove Louisiana's decisions not to list three waterbodies. These three waterbodies were added by EPA because the applicable numeric water quality standards marine criterion for dissolved oxygen was not attained in these segments.

Based on the Responsiveness Summary, EPA finds no new information or persuasive arguments as to why the three waters should not be added to the 2012 Louisiana Section 303(d) List as proposed. Therefore, EPA is taking Final Action on the addition of three waterbody pollutant combinations to the final Louisiana 2012 Section 303(d) List. The basis for these decisions is described in EPA's Record of Decision.

ADDRESSES: Copies of EPA's Responsiveness Summary Concerning EPA's July 18, 2013 Public Notice of Final Decisions To Add Waters and Pollutants to Louisiana's 2012 Section 303(d) List can be obtained at EPA Region 6's Web site at <http://www.epa.gov/region6/water/npdes/tmdl/index.htm#303dlists>, or by writing or calling Ms. Diane Smith at Water Quality Protection Division, U.S. Environmental Protection Agency Region 6, 1445 Ross Ave., Dallas, TX
