number: 202–343–9017; fax number: 202–343–2800; email address: heard.geanetta@epa.gov.

SUPPLEMENTARY INFORMATION:
Supporting documents which explain in detail the information that EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit http://www.epa.gov/dockets.

Abstract: EPA would like to continue to collect annual compliance reports from obligated parties, quarterly reports for all EMTS Transaction System (EMTS) users, generation and assignment of Renewable Identification Numbers (RINs) quarterly reports from biofuels producers and importers, and third party disclosure reports from biofuel feedstock producers by way of the Agency’s Central Data Exchange (CDX). The recordkeeping and reporting will allow EPA to monitor compliance with the RFS program. EPA informs respondents that they may assert claims of business confidentiality for information they submit in accordance with 40 CFR 2.203.

Respondents/affected entities:
Producers of renewable fuels, Importers, Obligated party, Parties who own RINs and Foreign Refiners.

Respondent’s obligation to respond: Mandatory (42 U.S.C. 7414 and 7542).

Estimated number of respondents: 2,092,731 (total).

Frequency of response: Annually, Quarterly & Daily.

Total estimated burden: 608,220 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: $69,337,137 (per year), which includes no annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 812,913 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to adjustments to the estimates. At the onset of the RFS2 program, EMTS for RINs were not a feature of RFS1. For the new EMTS system, all parties who owned RINs were required to re-submit their application, disclose feedstock sources, prepare quarterly reports on RIN activity and submit annual compliance reports (obligated party only). Re-submittal provisions are no longer required, which will cause a decrease in total responses for this ICR. EMIS users will not be burdened to submit more reports in this information collection, unlike the previous. The total responses for industry decreased now that the final rule is no longer requiring re-submissions or quarterly reports for certain party members. To date, biofuels producers and importers are required to submit quarterly reports along with their third party disclosure on feedstock producers to EPA. All users of the EMTS system are required to submit quarterly RIN reports.

The number of respondents or users of the EMTS system has more than doubled due to the additional response burden for mapping foreign and domestic plantation/forest land owners and foreign biofuels feedstock producers, which was not reflected in the previous ICR reporting period. With an increase of respondents, total burden hours have decreased from 1,421,133 to 608,220 hours. The reduction is due to the fact that the EMTS system’s automation structure helps users to prepare reports instantly, lessening the amount of time and cost needed to respond, even with more than a million added users.

John Moses, Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY
[FRL–9840–5]
Clean Water Act: Availability of List Decisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of EPA’s Responsiveness Summary Concerning EPA’s May 9, 2013 Public Notice of Proposed Decisions To Add Waters and Pollutants to Louisiana’s 2012 Section 303(d) List. On May 9, 2013 EPA published a notice in the Federal Register at Volume 78, Number 90, pages 27233–27234 providing the public the opportunity to review its decision to partially approve and proposal to partially disapprove Louisiana’s 2012 Section 303(d) List. Specifically, EPA approved Louisiana’s listing of 323 waterbody pollutant combinations, and associated priority rankings. EPA proposed to disapprove Louisiana’s decisions not to list three waterbodies. These three waterbodies were added by EPA because the applicable numeric water quality standards marine criterion for dissolved oxygen was not attained in these segments.

Based on the Responsiveness Summary, EPA finds no new information or persuasive arguments as to why the three waters should not be added to the 2012 Louisiana Section 303(d) List as proposed. Therefore, EPA is taking Final Action on the addition of three waterbody pollutant combinations to the final Louisiana 2012 Section 303(d) List. The basis for these decisions is described in EPA’s Record of Decision.

ADDRESSES: Copies of EPA’s Responsiveness Summary Concerning EPA’s July 18, 2013 Public Notice of Final Decisions To Add Waters and Pollutants to Louisiana’s 2012 Section 303(d) List can be obtained at EPA Region 6’s Web site at http://www.epa.gov/region6/water/npdes/tmdl/index.htm#303dlists, or by writing or calling Ms. Diane Smith at Water Quality Division, U.S. Environmental Protection Agency Region 6, 1445 Ross Ave., Dallas, TX.
FARM CREDIT ADMINISTRATION
Farm Credit Administration Board; Sunshine Act; Regular Meeting

AGENCY: Farm Credit Administration.

SUMMARY: Notice is hereby given, pursuant to the Government in the Sunshine Act, of the regular meeting of the Farm Credit Administration Board (Board).

DATE AND TIME: The regular meeting of the Board will be held at the offices of the Farm Credit Administration in McLean, Virginia, on August 8, 2013, from 9:00 a.m. until such time as the Board concludes its business.

FOR FURTHER INFORMATION CONTACT: Diane Smith at (214) 665–2145.

SUPPLEMENTARY INFORMATION: Section 303(d) of the Clean Water Act (CWA) requires that each state identify those waters for which existing technology-based pollution controls are not stringent enough to attain or maintain state water quality standards. For those waters, states are required to establish Total Maximum Daily Loads (TMDLs) according to a priority ranking.

EPA’s Water Quality Planning and Management regulations include requirements related to the implementation of Section 303(d) of the CWA (40 CFR 130.7). The regulations require states to identify water quality limited waters still requiring TMDLs every two years. The list of waters still needing TMDLs must also include priority rankings and must identify the waters targeted for TMDL development during the next two years (40 CFR 130.7).

Consistent with EPA’s regulations, Louisiana submitted to EPA its 2012 listing decisions under Section 303(d) on February 14, 2013. On May 1, 2013, EPA approved Louisiana’s 2012 listing of 323 water body-pollutant combinations and associated priority rankings, and proposed to disapprove Louisiana’s decisions not to list three waterbodies. On July 18, 2013, EPA finalized the action to disapprove Louisiana’s 2012 listing decisions not to list three water quality limited segments. EPA identified these additional waters and pollutants along with priority rankings for inclusion on the 2012 Section 303(d) List.

Dated: July 18, 2013.

David F. Garcia,
Deputy Director, Water Quality Protection Division, Region 6.

FEDERAL COMMUNICATIONS COMMISSION

Information Collection Being Submitted to the Office of Management and Budget for Review and Approval

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burden and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s).

Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information burden for small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before August 29, 2013. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Submit your PRA comments to Nicholas A. Fraser, Office of Management and Budget, via fax at 202–395–5167 or via Internet at Nicholas.A_Fraser@omb.eop.gov and to Benish Shah, Federal Communications Commission, via the Internet at Benish.Shah@fcc.gov. To submit your PRA comments by email send them to: PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Benish Shah, Office of Managing Director, (202) 418–7866.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060–0398.
Title: Sections 2.948 and 15.117(g)(2)—Equipment Authorization Measurement Standards.
Form No.: N/A.
Type of Review: Extension of a currently approved collection.
Respondents: Business or other for-profit entities.
Number of Respondents: 1,225 respondents; 525 responses.
Estimated Time per Response: 2 to 30 hours.
Frequency of Response: On occasion, one time and every three year reporting requirements, recordkeeping requirement and third party disclosure requirement.
