IV. Regulatory Flexibility Act

The Regulatory Flexibility Act does not apply to this rule because this final rule does not constitute a significant FAR revision and 41 U.S.C. 1707 does not require publication for public comment.

V. Paperwork Reduction Act

The final rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

SUPPLEMENTARY INFORMATION: Summaries for each FAR rule follow. For the actual revisions and/or amendments made by these FAR cases, refer to the specific item numbers and subjects set forth in the documents following these item summaries. FAC 2005–69 amends the FAR as specified below:

**Item I—Definition of Contingency Operation (FAR Case 2013–003)**

This final rule amends, without change, the interim rule published in the Federal Register at 78 FR 13765 on February 28, 2013, revising the definition of “contingency operation” in FAR 2.101 to address the statutory change to the definition made by paragraph (b) of section 515 of the National Defense Authorization Act for Fiscal Year 2012 (Pub. L. 112–12). Expanding the definition to include responding to a major disaster or emergency will increase the circumstances under which agencies may raise the micropurchase and simplified acquisition thresholds. This may increase opportunities for awarding contracts to small entities located at or near a major disaster area or emergency activities.

**Item II—Iran Threat Reduction (FAR Case 2012–030)**

This final rule adopts the interim rule published in the Federal Register at 77 FR 73516, on December 10, 2013, with minor changes. The interim rule amended the FAR to require certifications that implement the expansion of sanctions relating to the energy sector of Iran and sanctions with respect to Iran’s Revolutionary Guard Corps, as contained in titles II and III of the Iran Threat Reduction and Syria Human Rights Act of 2012. This final rule will not have a significant economic impact on a substantial number of small entities. As a result, the certification required in this case ensures that contracting officers will not award to offerors that engage in transactions with the Iran Revolutionary Guard Corps that exceed $3,000.

**Item III—Documenting Contractor Performance (FAR Case 2012–009)**

This rule amends FAR part 42 to provide Governmentwide standardized past performance evaluation factors and performance ratings, and to require all past performance information be entered into the Contractor Performance Assessment Reporting System (CPARS).

This change is required by statute, as well as by the Office of Federal Procurement Policy, which requested that FAR part 42 be revised to include recommendations from the Government Accountability Office Report GAO–09–374, Better Performance Information Needed to Support Agency Contract Award Decisions, to provide Governmentwide standardized evaluation factors and rating scales for the evaluation of contractor performance.

This rule specifically impacts contracting officers and contractors by clarifying the evaluation factors and performance ratings in the FAR. The rule also requires that all past performance information be entered into CPARS. The rule does not have a significant economic impact on small entities because the rule does not impose any additional requirements on small business.
