2016. During his probationary period, any relapse will be detected because of the drug screens and the requirement for the Respondent to disclose any violations of his HPP contract to the Board. Second, the DEA can further restrict his registration to the prescribing of controlled substances only, and to prohibit his prescribing to himself or to any other family member. Lastly, the situation that led to his addiction no longer exists. The Respondent has completed his residency program and has been drug free since October 5, 2010. These factors are also appropriate to consider when determining the appropriate use of the Administrator’s discretion in this matter. See Martha Hernandez, M.D., 62 FR 61,145 (DEA 1997) (holding that, in exercising his discretion in determining the appropriate remedy, the Administrator should consider all of the facts and circumstances of a particular case).

V. Conclusion and Recommendation

Therefore, I conclude that the DEA has met its burden of proof and has established that grounds exist for revoking the Respondent’s DEA registration. I do not condone nor minimize the seriousness of the Respondent’s misconduct. However, based on this record, I recommend that the Respondent be afforded an opportunity to demonstrate that he can responsibly handle controlled substance prescriptions by the granting of a restricted registration. See Cecil E. Oakes, Jr., M.D., 63 FR 11,907, 11,910 (DEA 1998) (“Such a resolution will provide Respondent with the opportunity to demonstrate that he can responsibly handle controlled substances, while at the same time protect the public health and safety, by providing a mechanism for rapid detection of any improper activity.”).

Based on this record and the Respondent’s actions since December of 2010, I recommend to the Administrator that the Respondent be granted a conditional DEA registration. I suggest that the conditions include: that the registration restricts his handling of controlled substances to merely prescribing and not storing or dispensing such drugs and that he be prohibited from prescribing controlled substances to himself or any family member. Further, I recommend that the Respondent be ordered to continue with his agreement with the Oklahoma HPP and to notify the DEA should a relapse or any positive urinalysis result. I recommend these restrictions apply for three years from the date of the final order so directing this result. In this way, the Respondent may safely continue his return to the full practice of medicine, and the DEA can assure itself of the Respondent’s compliance with DEA regulations and of the protection of the public interest.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA–95) (44 U.S.C. 3506(c)(2)(A)).

This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA’s estimate of the information collection burden is accurate. Consistent with the

3 The Administrator has the authority to make such a determination pursuant to 28 CFR 0.100(b) (2011).
authority of Section 21 of the OSH Act, the Agency created two educational programs, the OSHA Training Institute (OTI) Education Centers Program and the OSHA Outreach Training Program (Outreach).

To be a participant in the OTI Education Centers Programs or the Outreach Training Program, an individual/organization must provide the Agency with certain information. The requested information is necessary to evaluate the applicant organization and to implement, oversee, and monitor the OTI Education Centers and Outreach Training Programs, courses and trainers. The 11 collection of information requirements are listed below.

A. Application to become an OSHA Training Institute Education Center (OTI Education Center);
B. OTI Education Centers Monthly Summary Report for the OTI Education Centers and the Outreach Training Program Monthly Summary Report;
C. Statement of Compliance With Outreach Training Program Requirements;
D. Outreach Training Program Report Forms (includes Construction, General Industry, Maritime, and Disaster Site);
E. Online Outreach Training Program Report;
F. Active Trainer List;
G. OSHA Training Institute Student Survey (OSHA Form 49 11–05 Edition) (OMB 1225–0059) (Attachment I, OSHA Form 49 11–05 Edition);
H. Attendance Documentation for OTI Education Centers;
I. Outreach Online Training Certification Statement
J. Instructor and Staff Resumes (this include anyone who may be assigned to conduct OSHA classes, contractor, subcontractor, employee, adjunct professor, etc.);
K. Course Material upon Request by OSHA from OTI Education Centers;

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

• Whether the proposed information collection requirements are necessary for the proper performance of the Agency’s functions, including whether the information is useful;
• The accuracy of OSHA’s estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
• The quality, utility, and clarity of the information collected; and
• Ways to minimize the burden on employers who must comply, for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting a 4,059 hour burden hour adjustment increase as a result of increasing the number of courses offered, the number of students attending these two educational programs; and, in turn, the information OSHA needs to adequately monitor the programs. OSHA has identified a set of collections of information necessary for operating the Agency’s two education programs, the OSHA Training Institute (OTI) Education Centers Program and OSHA Outreach Training Program. The OTI Education Centers are non-profit organizations that provide training at their location. The Outreach Training Program trains individuals who become authorized to train other individuals. The trainers determine when and where training sessions will be held.

The Agency will summarize comments submitted in response to this notice and will include this summary in the request to OMB.

Type of Review: Extension of a previously approved collection.
