#### SUPPLEMENTARY INFORMATION:

##### Executive Order 12866

The Office of Management and Budget (OMB) has determined that this rule is not-significant for the purpose of Executive Order 12866 and, therefore, it has not been reviewed by OMB.

##### Paperwork Reduction Act of 1995

Pursuant to the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the collections of information in this rule have been approved by OMB under control number 0563-0053.

##### E-Government Act Compliance

FCIC is committed to complying with the E-Government Act of 2002, to promote the use of the Internet and other information technologies to provide increased opportunities for

citizen access to Government information and services, and for other purposes.

##### Unfunded Mandates Reform Act of 1995

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) establishes requirements for Federal agencies to assess the effects of their regulatory actions on State, local, and tribal governments and the private sector. This rule contains no Federal mandates (under the regulatory provisions of title II of the UMRA) for State, local, and tribal governments or the private sector. Therefore, this rule is not subject to the requirements of sections 202 and 205 of UMRA.

##### Executive Order 13132

It has been determined under section 1(a) of Executive Order 13132, Federalism, that this rule does not have sufficient implications to warrant consultation with the States. The provisions contained in this rule will not have a substantial direct effect on States, or on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

##### Executive Order 13175

This rule has been reviewed in accordance with the requirements of Executive Order 13175, Consultation and Coordination with Indian Tribal Governments. The review reveals that this regulation will not have substantial and direct effects on Tribal governments and will not have significant Tribal implications.

##### Regulatory Flexibility Act

FCIC certifies that this regulation will not have a significant economic impact on a substantial number of small entities. Program requirements for the Federal crop insurance program are the same for all producers regardless of the size of their farming operation. For instance, all producers are required to submit an application and acreage report to establish their insurance guarantees and compute premium amounts, and all producers are required to submit a notice of loss and production information to determine the amount of an indemnity payment in the event of an insured cause of crop loss. Whether a producer has 10 acres or

1000 acres, there is no difference in the kind of information collected. To ensure crop insurance is available to small entities, the Federal Crop Insurance Act authorizes FCIC to waive collection of administrative fees from limited resource farmers. FCIC believes this waiver helps to ensure that small entities are given the same opportunities as large entities to manage their risks through the use of crop insurance. A Regulatory Flexibility Analysis has not been prepared since this regulation does not have an impact on small entities, and therefore, this regulation is exempt from the provisions of the Regulatory Flexibility Act (5 U.S.C. 605).

#### Federal Assistance Program

This program is listed in the Catalog of Federal Domestic Assistance under No. 10.450.

#### Executive Order 12372

This program is not subject to the provisions of Executive Order 12372, which require intergovernmental consultation with State and local officials. See the Notice related to 7 CFR part 3015, subpart V, published at 48 FR 29115, June 24, 1983.

#### Executive Order 12988

This proposed rule has been reviewed in accordance with Executive Order 12988 on civil justice reform. The provisions of this rule will not have a retroactive effect. The provisions of this rule will preempt State and local laws to the extent such State and local laws are inconsistent herewith. With respect to any direct action taken by FCIC or action by FCIC to require the insurance provider to take specific action under the terms of the crop insurance policy, the administrative appeal provisions published at 7 CFR part 11 must be exhausted before any action against FCIC for judicial review may be brought.

#### Environmental Evaluation

This action is not expected to have a significant economic impact on the quality of the human environment, health, or safety. Therefore, neither an Environmental Assessment nor an Environmental Impact Statement is needed.

#### Background

FCIC proposes to amend the Common Crop Insurance Regulations (7 CFR part 457) by revising § 457.105 Extra Long Staple Cotton Crop Insurance Provisions to be effective for the 2014 and succeeding crop years. Requests from the public have been made for changes to improve the coverage offered, address program integrity issues, and simplify

program administration. The provisions will be effective for the 2014 and succeeding crop years.

The proposed changes to § 457.105 are as follows:

1. Section 9—FCIC proposes to revise section 9 to make it more consistent with the language currently in the Cotton Crop Provisions (§ 457.104). The ELS Crop Provisions currently include language that is already contained in the Basic Provisions. By making the language in certain sections of the ELS Cotton Crop Provisions more consistent with the Cotton Crop Provisions, both Crop Provisions will be the same and duplicative language between the ELS Cotton Crop Provisions and the Basic Provisions can be removed.

2. Section 11—FCIC proposes to allow for a late planting period if permitted by the Special Provisions. FCIC received inquiries from cotton producers and producer groups requesting a late planting provision. A late planting provision is available for Upland cotton which is insured under the Cotton Crop Provisions, but not for ELS cotton. The cotton industry requested a late planting option be available for both Upland cotton and ELS cotton. Based on research data of producers' planting practices and yields information from the University of California Cooperative Extension, a late planting period that extends from the April 30 final planting date to early May has minor impact to yields given historically favorable weather conditions in May. FCIC also proposes to revise section 11 to remove language that is contained in the Basic Provisions regarding late planting because it is duplicative and no longer needed.
