with respect to certain key steps in the process which is also posted on our Web site. The following steps and time frames are used for new NCDs and for reconsiderations of existing NCDs:

- Upon acceptance of a complete formal request or upon the opening of a CMS initiated review, we publish on our Web site a tracking sheet that provides public notice of the opening of the NCD process. We generally allow a 30-day public comment period on the NCD review topic announced via the tracking sheet. We use the initial public comments to inform a proposed decision. As stated above, at our discretion, we may announce a proposed decision concurrent with the notice of opening.

- A proposed decision is posted no later than 6 months after the posting of the tracking sheet, unless a technology assessment (TA) from an outside entity is commissioned, a clinical trial is requested, or a meeting of the MEDCAC is convened.

- In the event that a TA is commissioned from an outside entity or a MEDCAC meeting is held and a clinical trial is not requested, the proposed decision is posted no later than 9 months following the posting of the tracking sheet.

- Upon the posting of the proposed decision, there is a 30-day public comment period during which time the public is invited to comment on the substance of the proposed decision.

- A final NCD is posted on our Web site no later than 60 days following the close of the public comment period on the proposed decision.

- With publication of the final decision memorandum, the NCD is effective for claims with dates of service beginning with the effective date of the NCD. The memorandum contains, among other materials, the analysis and conclusions and also the NCD that becomes a part of the Medicare National Coverage Determination Manual (Pub. 100–3) of the CMS Internet Only Manual. After enactment of section 1862(l) of the Act, the effective date for the NCD is the same date as the publication date of the final decision memorandum. Therefore, we have found it expedient and practical to include the NCD that is included in the Medicare National Coverage Determination manual in the final decision memoranda and to use that date as the effective date for Medicare coverage and payment purposes.

2. Obtain the Data Integrity Board approval of the match agreements;

3. Furnish detailed reports about matching programs to Congress and OMB;

4. Notify applicants and beneficiaries that the records are subject to matching;

CMS Computer Match No. 2013–02
HHS Computer Match No. 1306
DoD–DMDC Match No. 12

NAME:
“Disclosure of Enrollment and Eligibility Information for Military Health System Beneficiaries Who are Medicare Eligible”

SECURITY CLASSIFICATION:
Level Three Privacy Act Sensitive

PARTICIPATING AGENCIES:
The Centers for Medicare & Medicaid Services (CMS); and Department of Defense (DoD), Defense Manpower Data Center (DMDC) and the Office of the Assistant Secretary of Defense (Health Affairs/TRICARE Management Activity (TMA)

AUTHORITY FOR CONDUCTING MATCHING PROGRAM:
Prior to 1991, Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) entitlement terminated when any individual became eligible for Medicare Part A on a non-premium basis. The National Defense Authorization Act(s) (NDAA) for Fiscal Years (FYs) 1992 and 1993 (Pub. L. 102–190) Section 704, provide for reinstatement of CHAMPUS as second payer for beneficiaries entitled to Medicare on the basis of disability/End Stage Renal Disease (ESRD) only if they also enroll in Part B.

Section 732 of the FY 1996 NDAA (Pub. L. 104–106), directed the administering Secretaries to develop a mechanism for notifying beneficiaries of their ineligibility for CHAMPUS when loss of eligibility is due to Medicare status (Part A only).

PURPOSE(S) OF THE MATCHING PROGRAM:
The purpose of the Computer Matching Agreement is to establish the conditions, safeguards and procedures under which CMS will disclose Medicare enrollment information to the DoD, DMDC, and Health Affairs/TMA. The disclosure by CMS will provide TMA with the information necessary to determine if Military Health System (MHS) beneficiaries (other than dependents of active duty personnel), who are Medicare eligible, are eligible to receive continued military health care benefits. This disclosure will provide TMA with the information necessary to meet the Congressional mandate outlined in legislative provisions in the NDAA listed above.

Current law requires TMA to discontinue military health care benefits to MHS beneficiaries who are Medicare eligible when they become eligible for Medicare Part A unless they are enrolled in Medicare Part B. In order for TMA to meet the requirements of current law, CMS agrees to disclose certain Part A and Part B enrollment data on this dual eligible population, which will be used to determine a beneficiary’s eligibility for care under CHAMPUS/TRICARE. DMDC will receive the results of the computer match and provide the information to TMA for use in its matching program.

DESCRIPTION OF RECORDS TO BE USED IN THE MATCHING PROGRAM:
The matching program will be conducted with data maintained in the DoD System of Records (SOR) identified as DMDC 02 DoD, entitled “Defense Enrollment Eligibility Reporting System,” at 77 FR 69807 (November 21, 2012) and the SOR identified as DHA 07, entitled “Military Health Information System (MHIS),” at 71 FR 16127 (March 30, 2006). The release of the data for CMS is covered under the “Enrollment Database,” System No. 09–70–0502 published at 73 FR 10249 (February 26, 2008).

INCLUSIVE DATES OF THE MATCH:
The matching program will become effective no sooner than 40 days after the report of the matching program is sent to OMB and Congress, or 30 days after publication in the Federal Register, whichever is later.
