

POLICY JUSTIFICATION*Qatar—AN/FPS-132 Block 5 Early Warning Radar*

The Government of Qatar has requested a possible sale of one (1) AN/FPS-132 Block 5 Early Warning Radar (EWR) to include Prime Mission Equipment package, technical and support facilities, communication equipment, encryption devices, spare and repair parts, support and test equipment, publications and technical documentation, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services; and related elements of logistics and program support. The estimated cost is \$1.1B.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

This proposed sale will help strengthen U.S. efforts to promote regional stability by enhancing regional defense to a key U.S. ally. The acquisition of this air defense system would provide a permanent defensive capability to the Qatar Peninsula as well as protection of the economic infrastructure and well-being of Qatar. The proposed sale will help strengthen Qatar's capability to counter current and future threats in the region and reduce dependence on U.S. forces. Qatar will have no difficulty absorbing this radar system into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Company in Woburn, Massachusetts. There are no known offset agreements proposed in connection with this potential sale at this time.

Implementation of this proposed sale will require the assignment of additional U.S. Government or contractor representatives to Qatar. The number of U.S. Government and contractor representatives required in Qatar to support the program will be determined in joint negotiations as the program proceeds through the development, production and equipment installation phases.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 13-33

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) Of the Arms Export Control Act

Annex

Item No. vii

(vii) Sensitivity of Technology:

1. The AN/FPS-132 Block 5 supports Missile Defense, Space Situational Awareness, and Missile Warning mission areas. The Block 5 system employs 3 electronically steered phased array radar faces to survey 360 degree azimuth. The Block 5 system is capable of reporting airborne tracks to a maximum range of up to 2000 km and to a minimum radar cross-section (RCS) of 1 m².

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware or software in this proposed sale, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

POLICY JUSTIFICATION

Iraq—M1135 Stryker Nuclear, Biological, and Chemical Reconnaissance Vehicles

The Government of Iraq has requested a possible sale of 50 M1135 Stryker Nuclear, Biological, and Chemical Reconnaissance Vehicles, DECON 3000 Decontamination Systems, M26 Commercial Joint Service Transportable Decontamination Systems (JSTDS), AN/VRC-89 Single Channel Ground and Airborne Radio Systems (SINCGARS) with Global Positioning System (GPS), AN/VRC-90 SINCGARS with GPS, M40A1 Protective Masks, Lightweight Personal Chemical Detectors LCD-3, Portable Chemical Warfare Agent Detectors GID-3, MultiRAE PLUS Gas Detectors, AN/VDR-2 Radiac Sets, M256 Chemical Agent Detector Kits, Decontamination Kits, Chemical Biological Mask Canisters, M8 Chemical Paper Agent Detector Kits, water canteens, individual clothing and equipment, spare and repair parts, support equipment, communication equipment, publications and technical data, personnel training and training equipment, site surveys, a Quality Assurance Team, U.S. Government and contractor technical assistance, and other related elements of program and logistics support. The estimated cost is \$900 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale will contribute to Iraq's stability and sovereignty by increasing its situational awareness and ability to identify potential Chemical, Biological, Radiological and Nuclear (CBRN) agents. This proposed sale directly supports the Iraqi government and serves the interests of the Iraqi people and the United States.

This equipment provides the Iraqi Army CBRN reconnaissance units with reliable capabilities for early warning of contamination by radiological, biological, and chemical material. Overall, these systems meet the requirements of providing the Iraqi Army with the ability to conduct CBRN

reconnaissance techniques of search, survey, surveillance, and sampling to reduce the effects of exposure to these hazardous agents.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors involved in this program are General Dynamics Land System of Sterling Heights, Michigan; Karcher Futuretech of Schwaileim, Germany; DRS Technologies of Florence, Kentucky; Smiths Detection of Danbury, Connecticut; and Federal Resources of Stevensville, Maryland. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require approximately 35 U.S. Government or contractor representatives to travel to Iraq for a period of up to 2 years to provide management and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
