

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop; (2) a series of Assessment Workshop webinars; and (3) Review Workshop. The product of the Data Workshop is a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The assessment webinars produce a report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Consensus Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion during the data webinar are as follows:

Participants will present summary data and will discuss data needs and treatments.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the SEDAR office (see **ADDRESSES**) at least 10 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Marine Mammals; File No. 17324

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; denial of permit.

SUMMARY: Notice is hereby given that an application for a public display permit (File No. 17324) submitted by the Georgia Aquarium Inc., 225 Baker Street, Atlanta, GA 30313, has been denied.

ADDRESSES: The application and related documents are available for review online at http://www.nmfs.noaa.gov/pr/permits/georgia_aquarium_belugas.htm or upon written request or by appointment in the following office(s):

SUPPLEMENTARY INFORMATION: On August 30, 2012, a notice was published in the **Federal Register** (77 FR 52694) that an application had been filed by the above named applicant for a permit to import 18 wild caught beluga whales from the Utrish Marine Mammal Research Station in Russia to the United States for the purpose of public display. All 18 beluga whales were collected in

Sakhalin Bay of the Sea of Okhotsk in 2006, 2010, and 2011. The requested permit has been denied subject to the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 *et seq.*), and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

An environmental assessment (EA) was prepared analyzing the effects of the proposed activities on the human environment in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*). Based on the analyses in the EA, NMFS determined that denial of the permit would not significantly impact the quality of the human environment and that preparation of an environmental impact statement was not required. That determination is documented in a Finding of No Significant Impact (FONSI), signed on August 5, 2013.

Dated: August 5, 2013.
