Comments Invited

Interested parties are invited to
participate in this proposed rulemaking
by submitting such written data, views,
or arguments, as they may desire.
Comments that provide the factual basis
supporting the views and suggestions
presented are particularly helpful in
developing reasoned regulatory
decisions on the proposal. Comments
are specifically invited on the overall
regulatory, aeronautical, economic,
environmental, and energy-related
aspects of the proposal.
Communications should identify both
docket numbers and be submitted in
triplicate to the address listed above.
Commenters wishing the FAA to
acknowledge receipt of their comments
on this notice of proposed rulemaking
must submit with those comments a
self-addressed, stamped postcard on
which the following statement is made:
“Comments to Docket No. FAA–2013–
0173/Airspace Docket No. 13–ASW–6.”
The postcard will be date/time stamped
and returned to the commenter.

System, which describes the application
procedure.

The Proposal

This action proposes to amend Title
14, Code of Federal Regulations (14
CFR), Part 71 by amending Class E
airspace extending upward from 700
feet above the surface to accommodate
new standard instrument approach
procedures at Cavern City Air Terminal,
Carlsbad, NM. Accordingly, an
additional segment would extend from
the 7.4-mile radius of the airport to 10.7
miles southwest of the airport, to retain
the safety and management of IFR
aircraft in Class E airspace to/from the
en route environment.

Class E airspace areas are published
in Paragraph 6005 of FAA Order
7400.9W, dated August 8, 2012 and
effective September 15, 2012, which is
incorporated by reference in 14 CFR
71.1. The Class E airspace designation
listed in this document would be
published subsequently in the Order.

The FAA has determined that this
proposed regulation only involves an
established body of technical
regulations for which frequent and
routine amendments are necessary to
keep them operationally current. It,
therefore, (1) is not a “significant
regulatory action” under Executive
Order 12866; (2) is not a “significant
rule” under DOT Regulatory Policies
and Procedures (44 FR 11034; February
26, 1979); and (3) does not warrant
preparation of a Regulatory Evaluation
as the anticipated impact is so minimal.

Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This proposed regulation is within the scope of that authority as it would amend controlled airspace at Cavern City Air Terminal, Carlsbad, NM.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.
