

submittal of the LAR. It is recommended that this timing aspect be addressed in ISG-025.

NRC Response: The NRC staff does not agree with this comment. A PAR may be voluntarily submitted by a licensee at any time prior to, concurrent with or after the submittal of the related LAR (although the NRC cannot issue a PAR notification until the LAR is submitted). The 1-year time frame discussed is the expected processing time allocated to the staff's detailed technical review of a LAR. No change was made to the ISG as a result of this comment.

Other Changes to Draft Interim Staff Guidance

In addition to the changes made in response to public comments, as discussed above, this draft ISG-025 contains one substantial change which was derived from the lessons learned from the NRC staff's administrative practices during the past year of processing PARs and LARs for the new nuclear power plants under construction.

The criteria for issuing a PAR notification are dependent upon the staff's acceptance of the related LAR for detailed technical review. The staff will not issue the determination on the PAR until after the staff has accepted the related LAR for detailed technical review. This repositioning of the staff's determination reduces the regulatory burden on licensees by recognizing that the licensee's proposed basis for the no-significant hazards determination and the categorical exclusion from the National Environmental Policy Act evaluation is contained in the related LAR.

Because these two aspects are evaluated by the staff during the acceptance review of the related LAR, the provision for the licensee to submit this information in the PAR, and the staff's examination of this information during its consideration of the PAR were removed from COL-ISG-025.

This draft COL-ISG-025 clarifies that the staff will not issue a determination on the PAR until two conditions are satisfied; (1) The licensee submits the related LAR and, (2) the staff has accepted the related LAR for detailed technical review.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-70155; File No. SR-NYSE-2013-57]

Self-Regulatory Organizations; New York Stock Exchange LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Amending Section 902.03 of the Listed Company Manual To Specify How the Initial Application Fee Is Treated for Certain Issuers That Do Not Immediately List a Security for Which They Already Paid an Initial Application Fee

August 9, 2013.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 31, 2013, New York Stock Exchange LLC ("NYSE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of the Substance of the Proposed Rule Change

The Exchange proposes to amend Section 902.03 of the Listed Company Manual (the "Manual") to specify how the Initial Application Fee is treated for certain issuers that do not immediately list a security for which they already paid an Initial Application Fee. In addition to the substantive changes proposed herein, the Exchange also proposes to make certain non-substantive changes to Section 902.03. The text of the proposed rule change is available on the Exchange's Web site at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below,

of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Section 902.03 of the Manual to specify how the Initial Application Fee is treated for certain issuers that do not immediately list a security for which they already paid an Initial Application Fee. In addition to the substantive changes proposed herein, the Exchange also proposes to make certain non-substantive changes to Section 902.03.

Background

Section 902.03 of the Manual provides for an Initial Application Fee of \$25,000 that is charged to an issuer that applies to list certain securities on the Exchange.³

An issuer applying to list a security on the Exchange is subject to a preliminary free confidential review by NYSE Regulation, Inc. ("NYSER"), in which NYSER determines the issuer's qualification for listing. As set forth in Section 702.02 of the Manual, if NYSER determines in connection with this preliminary confidential review that the issuer is qualified for listing, the issuer is informed that it has been cleared as eligible to list and that the Exchange will accept a formal Original Listing Application from the issuer. It is the Exchange's practice to notify the issuer of its eligibility clearance and the conditions to its listing by means of a letter (the "pre-clearance" letter).⁴

For an issuer subject to the Initial Application Fee, payment of the Initial Application Fee is a prior condition to eligibility clearance being granted. As a practical matter, the Exchange anticipates that an issuer would pay the Initial Application Fee after NYSER has completed its preliminary confidential review and has determined that the issuer is eligible to submit a formal Original Listing Application, but before

³ See Securities Exchange Act Release No. 68470 (December 19, 2012), 77 FR 76116 (December 26, 2012) (SR-NYSE-2012-68). Certain issuers are not required to pay an Initial Application Fee. See Section 902.03.

⁴ The Exchange has submitted a rule filing to the SEC that would revise the sections of the Manual describing the listing application process and would delete Section 702.02. However, new Sections 104.00 and 702.00 will describe the eligibility clearance process in a manner that is substantively the same as that provided in this filing. See 34-69565 (May 13, 2013), 78 FR 29165 (May 17, 2013) (SR-NYSE-2013-33). See also 34-69878 (June 27, 2013) (extending until August 15, 2013 the Commission's time to take action on the listing application filing).
