

security manager, and the telephone number of the security operations or control center. Submission of this voluntary information may be done by telephone, email, or any other method convenient to the pipeline operator.

As the lead Federal agency for pipeline security, TSA desires to be notified of all incidents which are indicative of a deliberate attempt to disrupt pipeline operations or activities that could be precursors to such an attempt. The Pipeline Security Guidelines request pipeline operators notify the Transportation Security Operation Center (TSOC) via phone at 866-615-5150 or email at [TSOC.ST@dhs.gov](mailto:TSOC.ST@dhs.gov) as soon as possible if any of the following incidents occurs or if there is other reason to believe that a terrorist incident may be planned or may have occurred:

- Explosions or fires of a suspicious nature affecting pipeline systems, facilities, or assets;
- Actual or suspected attacks on pipeline systems, facilities, or assets;
- Bomb threats or weapons of mass destruction (WMD) threats to pipeline systems, facilities, or assets;
- Theft of pipeline company vehicles, uniforms, or employee credentials;
- Suspicious persons or vehicles around pipeline systems, facilities, assets, or right-of-way;
- Suspicious photography or possible surveillance of pipeline systems, facilities, or assets;
- Suspicious phone calls from people asking about the vulnerabilities or security practices of a pipeline system, facility, or asset operation;
- Suspicious individuals applying for security-sensitive positions in the pipeline company;
- Theft or loss of Sensitive Security Information (SSI) (detailed pipeline maps, security plans, etc.); and
- Actual or suspected cyber-attacks that could impact pipeline Supervisory Control and Data Acquisition (SCADA) or enterprise associated IT systems.

When contacting the TSOC, the Guidelines request pipeline operators provide as much of the following information as possible:

- Name and contact information (email address, telephone number);
- The time and location of the incident, as specifically as possible;
- A description of the incident or activity involved;
- Who has been notified and what actions have been taken; and
- The names and/or descriptions of persons involved or suspicious parties and license plates as appropriate.

There are approximately 3,000 pipeline companies in the United

States. TSA estimates that pipeline operators will require a maximum of 15 minutes to collect, review, and submit primary/alternate security manager and security operations or control center contact information by telephone or email. Assuming voluntary submission of the requested information by all operators, the potential burden to the public is estimated to be a maximum of 750 hours (3,000 companies × 15 minutes = 750 hours). Turnover of security personnel would necessitate changes to previously-submitted contact information on an as-occurring basis. Assuming an annual employee turnover rate of 10 percent, the potential burden to the public is estimated to be a maximum of 75 hours (3,000 companies × 10 percent turnover = 300 updates; 300 updates × 15 minutes = 75 hours).

TSA expects reporting of pipeline security incidents will occur on an irregular basis. TSA estimates that approximately 40 incidents will be reported annually, requiring a maximum of 30 minutes to collect, review, and submit event information. The potential burden to the public is estimated to be 20 hours. (40 incidents × 30 minutes = 20 hours)

#### *Use of Results*

The renewal of this information collection will allow TSA to continue using the operator contact information to provide security-related information to company security managers and/or the security operations or control center. Additionally, TSA may use operator contact information to solicit additional information following a pipeline security incident. TSA will use the security incident information provided by operators for vulnerability identification and analysis and trend analysis.

Since the 2011 issuance of the Pipeline Security Guidelines, reports of security incidents in the pipeline industry have been routinely used by the TSA to analyze trends in suspicious activities. This analysis is incorporated into TSA's annual pipeline modal threat assessment. TSA may also include incident information, in redacted form, in additional intelligence reports produced by TSA relevant to transportation security. TSA recognizes that the criteria for evaluating an activity as suspicious may vary from company to company. Nevertheless, the submission of information regarding events that may indicate pre-operational activities is of considerable value for threat analysis. To the extent that incident information provided by pipeline operators is SSI, it will be protected in accordance with

procedures meeting the transmission, handling, and storage requirements of SSI set forth in 49 CFR parts 15 and 1520.

## **DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**

[Docket No. FR-5681-N-33]

### **Federal Property Suitable as Facilities To Assist the Homeless**

**AGENCY:** Office of the Assistant Secretary for Community Planning and Development, HUD.

**ACTION:** Notice.

**SUMMARY:** This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

**FOR FURTHER INFORMATION CONTACT:** Juanita Perry, Department of Housing and Urban Development, 451 Seventh Street SW., Room 7262, Washington, DC 20410; telephone (202) 402-3970; TTY number for the hearing- and speech-impaired (202) 708-2565, (these telephone numbers are not toll-free), or call the toll-free Title V information line at 800-927-7588.

**SUPPLEMENTARY INFORMATION:** In accordance with the December 12, 1988 court order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.), HUD publishes a Notice, on a weekly basis, identifying unutilized, underutilized, excess and surplus Federal buildings and real property that HUD has reviewed for suitability for use to assist the homeless. Today's Notice is for the purpose of announcing that no additional properties have been determined suitable or unsuitable this week.

Dated: August 8, 2013.
