

waterfowl. Restoring cropland to perennial grassland would be the dominant activity in the uplands, while a variety of pothole wetlands would be the focus for restoration in the lowlands, especially those important to restoration of semi-permanent to shallow lakes. A diversity of wetland types would provide for a greater diversity of wildlife, in particular, grassland and other wetland birds. As in Alternative C, public use opportunities, in addition to hunting, fishing, and trapping, as well as some additional public use facilities (kiosks, etc.), would be provided, and some food plots would remain. Once again, environmental education, interpretation, and outreach would remain at current levels, with more emphasis on distributing a consistent message for the entire district.

Public Involvement

We will give the public an opportunity to provide input at public meetings. You can obtain the schedule from the address or Web site listed in this notice (see **ADDRESSES**). You may also submit comments anytime during the comment period.
