To operate within the limits of the reduced budgets for SFY 2012 and SFY 2013, the LRAPA reduced recurring expenditures by imposing unpaid furlough days, work schedule reductions, and other systematic across-the-board reductions in materials and services, as well as not filling positions vacated due to retirements or resignations.

For the LRAPA to be eligible to receive its SFY 2014 CAA Section 105 grant, the EPA must make a determination (after notice and an opportunity for a public hearing and comment) that the reduction in expenditures is attributable to a non-selective reduction in the budget of the Lane Regional Air Protection Agency. Accordingly, consistent with criteria set forth in CAA Section 105(c)(2) and consistent with the Agency's September 30, 2011 guidance on qualifying for a non-selective reduction, the EPA has determined that it is appropriate to approve the LRAPA's request for a non selective reduction in its level of recurring expenditures for the SFY 2012 and SFY 2013 grant budget period. The revised MOE level for SFY 2012 is \$935,855 and the level for SFY2013 is \$800,313.

This notice constitutes a request for public comment and an opportunity for public hearing as required by the Clean Air Act. All written comments received by September 19, 2013 on this proposal will be considered. The EPA will conduct a public hearing on this proposal only if a written request for such is received by the EPA at the address above by September 19, 2013. If no written request for a hearing is received, the EPA will proceed to the final determination. While notice of the final determination will not be published in the **Federal Register**, copies of the determination can be obtained by sending a written request to Paul Koprowski at the above address.

#### **SUPPLEMENTARY INFORMATION:**

#### **I. Additional Information About the Proposed Consent Decree**

The proposed consent decree would resolve a lawsuit filed by the Plaintiffs seeking to compel the Administrator to take final action under section 112(d)(6), 42 U.S.C. 7412(d)(6), to “review, and revise as necessary” the national emission standards for hazardous air pollutants (“NESHAP”) and to take final action addressing residual risk under CAA section 112(f)(2), 42 U.S.C. 7412(f)(2), for petroleum refineries under 40 CFR Part 63, Subpart CC and 40 CFR Part 63, Subpart UUU, within 8 years of the promulgation of such standards. The proposed consent decree provides that no later than February 14, 2014, EPA shall (1) review and either sign a proposal to revise the emission standards in 40 CFR Part 63, Subparts CC and UUU under CAA section 112(d)(6), 42 U.S.C. 7412(d)(6), or sign a proposed determination that revision of Subparts CC and UUU is not necessary under CAA section 112(d)(6) and (2) review and either sign a proposal to promulgate residual risk standards for the Petroleum Refineries source category subject to NESHAP Subparts CC and UUU under CAA section 112(f)(2), 42 U.S.C. 7412(f)(2), or sign a proposed determination that promulgation of such standards is not required under CAA section 112(f)(2). The proposed consent decree also provides that no later than December 19, 2014, EPA shall, (1) sign a final rule promulgating revisions to the emission standards in NESHAP Subparts CC and UUU under CAA section 112(d)(6), or sign a final determination that revision of NESHAP Subparts CC and UUU is not necessary under CAA section 112(d)(6) and (2) sign a final rule promulgating residual risk standards for the Petroleum Refineries source

category subject to NESHAP Subparts CC and UUU under CAA section 112(f)(2), or sign a final determination that promulgation of such standards is not required under CAA section 112(f)(2).

Within 15 business days following signature of each rule or determination or combination thereof as described in the proposed consent decree, EPA is also required to send the signed notice of each action to the Office of the Federal Register for review and publication in the **Federal Register**. After EPA fulfills all of its obligations under the consent decree, the proposed consent decree provides that EPA may move to have the consent decree terminated and the case dismissed.

For a period of thirty (30) days following the date of publication of this notice, the Agency will accept written comments relating to the proposed consent decree from persons who were not named as parties or intervenors to the litigation in question. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act. Unless EPA or the Department of Justice determines, based on any comment submitted, that consent to this consent decree should be withdrawn, the decree will be affirmed.

## II. Additional Information About Commenting on the Proposed Consent Decree

### A. How can I get a copy of the consent decree?

The official public docket for this action (identified by Docket ID No. EPA-HQ-OGC-2013-0580) contains a copy of the proposed consent decree (including Attachment A). The official public docket is available for public viewing at the Office of Environmental Information (OEI) Docket in the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OEI Docket is (202) 566-1752.

An electronic version of the public docket is available through [www.regulations.gov](http://www.regulations.gov). You may use the [www.regulations.gov](http://www.regulations.gov) to submit or view public comments, access the index listing of the contents of the official

public docket, and to access those documents in the public docket that are available electronically. Once in the system, key in the appropriate docket identification number then select "search".

It is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing online at [www.regulations.gov](http://www.regulations.gov) without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. Information claimed as CBI and other information whose disclosure is restricted by statute is not included in the official public docket or in the electronic public docket. EPA's policy is that copyrighted material, including copyrighted material contained in a public comment, will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the EPA Docket Center.

### B. How and to whom do I submit comments?

You may submit comments as provided in the **ADDRESSES** section. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an email address or other contact information in the body of your comment and with any disk or CD ROM you submit. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the [www.regulations.gov](http://www.regulations.gov) Web site to submit comments to EPA electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous

access" system, which means EPA will not know your identity, email address, or other contact information unless you provide it in the body of your comment. In contrast to EPA's electronic public docket, EPA's electronic mail (email) system is not an "anonymous access" system. If you send an email comment directly to the Docket without going through [www.regulations.gov](http://www.regulations.gov), your email address is automatically captured and included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.
