SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Federal Government institutions wishing to conduct or support research on human subjects must first submit for approval to duly designated authorities an Assurance that they will comply with established guidelines in such research. Such Assurances are granted by components of DoD and by the Department of Health and Human Services (HHS). DoD guidance requires principal and associate investigators individually and explicitly to acknowledge that they understand and accept responsibility for protecting the rights and welfare of human research subjects. All principal and associate investigators engaged in research supported or conducted under the purview of the USD(P&R) must read and sign a document that attests to their commitment to abide by the provisions of: (a) The Belmont Report: Ethical Principles and Guidelines for the Protection of Human Subjects of Research; (b) the U.S. Department of Defense (DoD) regulations for the protection of human subjects at Title 32, Code of Federal Regulations, Part 219 (32 CFR part 219) and DoD Instruction 3216.02; (c) the Assurance of the engaged institution; relevant institutional policies and procedures where appropriate; and other Federal, State, or local regulations where appropriate. The Office of the Assistant Secretary of Defense for Health Affairs announces the intent to renew its Researcher Responsibility Form for this purpose and seeks public comment on the provisions thereof. Respondents are professionals who have been designated as principal or associate investigators. When preparing to initiate work on their first human subject research protocol, each principal investigator and associate investigator must assure they have the proposed Researcher Responsibilities form on file with the OUSD(P&R) Component office. This may require new forms from approximately 90 investigators. The form is two pages in length including statements agreed to and half a page for respondent signature and contact information. Respondents generally will be required to scan the form and forward it electronically. The form will be filed electronically and form completion will be logged into a database. After three years, if a researcher still is engaged in research with OUSD(P&R), he/she will be asked to reaffirm his/her commitment electronically. This information collection does not involve sensitive personal information and requires no special confidentiality measures.
