

Action Item—Co-chairs author a second memo to the NOC revisiting ideas for future topics for ORAP to report on

- Why diversity is important in ocean sciences.
- It is imperative to have international cooperation in the ocean enterprise.
- Uncertainty in data and model output.

Future Meetings

- ONR has sufficient travel money to hold an August meeting, including travel support for invited speakers.
- It costs about the same to bring ORAP to DC or California but if the ORAP wants federal experts to attend, the meeting must be in DC.
- Cancel the August 1 teleconference; the next meeting will be held in DC or Monterey on August 21–22, 2013.
- Possible virtual meeting (must be open to the public) in October to approve the education report and discuss new tasks from the NOC.
- ONR will initiate doodle polls to schedule teleconference in September or October; next in-person meeting perhaps between December 2 and 6 or in January? Last week of March or first half of April?

Overview of Progress From Working Groups—Continued

Ocean Infrastructure Report—Summary—B. Weller by Phone

- The report is on track. The writing team will add a piece on public/private partnerships; offer examples of approaches on infrastructure; provide demographics of proposals submitted to NSF and discuss evolving mechanism(s) of infrastructure funding from research use to operational use.
- Expect to have a draft ready by the August meeting with possible ORAP review either in October or December/January.

Public Comment Period

Susan Roberts, Director of the Ocean Studies Board (OSB), National Research Council Regarding the Upcoming NRC Study on Ocean Priorities

The OSB has been tasked to perform a Decadal Survey; the objective is to establish priorities for NSF ocean research and infrastructure with recognition that resources are limited. The OSB is planning a 20 member panel and is presently seeking recommendations for panel members. It is expected to take 2 years and up to 7 meetings to complete the report. Community outreach will be important. The NSF is sponsoring the report but

the panel will consider strategies of other federal ocean agencies. The committee will be very interested in the ORAP reports that are currently being written. Note the “ocean” in this context includes the Great Lakes. The members of ORAP can assist the OSB in populating the committee by telling their colleagues of the search.

There were no further comments from the public.

The DFO adjourned the meeting at 12:10pm.

Federal Energy Regulatory Commission

[Project No. 14368-000-CO]

Catamount Metropolitan District; Notice of Availability of Final Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47879), the Office of Energy Projects has reviewed the application for a small hydropower project exemption for the Catamount Hydroelectric Project, to be located at the existing Catamount dam and Lake Catamount in Routt County, near the City of Steamboat Springs, in the state of Colorado, and has prepared a final Environmental Assessment (final EA). In the final EA, Commission staff analyzed the potential environmental effects of the proposed project and concludes that issuing an exemption for the project, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the final EA is on file with the Commission and is available for public inspection. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.
