

DEPARTMENT OF COMMERCE**International Trade Administration**

[A-570-967, C-570-968]

Aluminum Extrusions From the People's Republic of China: Initiation of Changed Circumstances Reviews and Consideration of Revocation of the Antidumping and Countervailing Duty Orders in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: In response to a request by 3M Company (3M), a U.S. importer of certain rectangular wire, the Department of Commerce (the Department) is initiating changed circumstances reviews of the antidumping duty (AD) and countervailing (CVD) duty orders on aluminum extrusions from the People's Republic of China. Interested parties are invited to comment on this notice of initiation.

DATES: *Effective Date:* August 20, 2013.

FOR FURTHER INFORMATION CONTACT: James Terpstra, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington DC 20230; telephone (202) 482-3965.

Background

On May 26, 2011, the Department published in the **Federal Register** the AD and CVD orders on aluminum extrusions from the PRC.¹

On June 20, 2013, the Department received a request on behalf of 3M for changed circumstances reviews to revoke, in part, the *Orders* with respect to certain rectangular wire imported by 3M. In its request, 3M attached a letter submitted on behalf of the Aluminum Extrusion Fair Trade Committee (AEFTC), the petitioners in the less-than-fair-value and CVD investigations, and the Aluminum Extrusion Council (AEC), in which representatives of the AEFTC and AEC stated that they do not oppose the partial revocation of the *Orders* with respect to the specific product identified in 3M's changed circumstances review requests. Further, 3M requested that the Department expedite the review by combining the notice of initiation of the changed circumstances reviews and the preliminary results of the reviews

pursuant to 19 CFR 351.221(c)(3)(ii). On July 2, 2013, 3M filed a letter containing a clarification from the AEFTC and AEC in which they stated that they do not oppose revocation of the *Orders* with regard to certain rectangular wire, regardless of whether 3M or another party is the importer. We did not receive comments from any other party.

Scope of the Orders

The merchandise covered by these *Orders* is aluminum extrusions which are shapes and forms, produced by an extrusion process, made from aluminum alloys having metallic elements corresponding to the alloy series designations published by The Aluminum Association commencing with the numbers 1, 3, and 6 (or proprietary equivalents or other certifying body equivalents). Specifically, the subject merchandise made from aluminum alloy with an Aluminum Association series designation commencing with the number 1 contains not less than 99 percent aluminum by weight. The subject merchandise made from aluminum alloy with an Aluminum Association series designation commencing with the number 3 contains manganese as the major alloying element, with manganese accounting for not more than 3.0 percent of total materials by weight. The subject merchandise is made from an aluminum alloy with an Aluminum Association series designation commencing with the number 6 contains magnesium and silicon as the major alloying elements, with magnesium accounting for at least 0.1 percent but not more than 2.0 percent of total materials by weight, and silicon accounting for at least 0.1 percent but not more than 3.0 percent of total materials by weight. The subject aluminum extrusions are properly identified by a four-digit alloy series without either a decimal point or leading letter. Illustrative examples from among the approximately 160 registered alloys that may characterize the subject merchandise are as follows: 1350, 3003, and 6060.

Aluminum extrusions are produced and imported in a wide variety of shapes and forms, including, but not limited to, hollow profiles, other solid profiles, pipes, tubes, bars, and rods. Aluminum extrusions that are drawn subsequent to extrusion (drawn aluminum) are also included in the scope.

Aluminum extrusions are produced and imported with a variety of finishes (both coatings and surface treatments), and types of fabrication. The types of

coatings and treatments applied to subject aluminum extrusions include, but are not limited to, extrusions that are mill finished (*i.e.*, without any coating or further finishing), brushed, buffed, polished, anodized (including bright-dip anodized), liquid painted, or powder coated. Aluminum extrusions may also be fabricated, *i.e.*, prepared for assembly. Such operations would include, but are not limited to, extrusions that are cut-to-length, machined, drilled, punched, notched, bent, stretched, knurled, swaged, mitered, chamfered, threaded, and spun. The subject merchandise includes aluminum extrusions that are finished (coated, painted, *etc.*), fabricated, or any combination thereof.

Subject aluminum extrusions may be described at the time of importation as parts for final finished products that are assembled after importation, including, but not limited to, window frames, door frames, solar panels, curtain walls, or furniture. Such parts that otherwise meet the definition of aluminum extrusions are included in the scope. The scope includes the aluminum extrusion components that are attached (*e.g.*, by welding or fasteners) to form subassemblies, *i.e.*, partially assembled merchandise unless imported as part of the finished goods 'kit' defined further below. The scope does not include the non-aluminum extrusion components of subassemblies or subject kits.

Subject extrusions may be identified with reference to their end use, such as fence posts, electrical conduits, door thresholds, carpet trim, or heat sinks (that do not meet the finished heat sink exclusionary language below). Such goods are subject merchandise if they otherwise meet the scope definition, regardless of whether they are ready for use at the time of importation.

The following aluminum extrusion products are excluded: aluminum extrusions made from aluminum alloy with an Aluminum Association series designations commencing with the number 2 and containing in excess of 1.5 percent copper by weight; aluminum extrusions made from aluminum alloy with an Aluminum Association series designation commencing with the number 5 and containing in excess of 1.0 percent magnesium by weight; and aluminum extrusions made from aluminum alloy with an Aluminum Association series designation commencing with the number 7 and containing in excess of 2.0 percent zinc by weight.

The scope also excludes finished merchandise containing aluminum extrusions as parts that are fully and permanently assembled and completed

¹ See *Aluminum Extrusions from the People's Republic of China: Antidumping Duty Order*, 76 FR 30650 (May 26, 2011) and *Aluminum Extrusions From the People's Republic of China: Countervailing Duty Order*, 76 FR 30653 (May 26, 2011) (together, the *Orders*).

at the time of entry, such as finished windows with glass, doors with glass or vinyl, picture frames with glass pane and backing material, and solar panels. The scope also excludes finished goods containing aluminum extrusions that are entered unassembled in a "finished goods kit." A finished goods kit is understood to mean a packaged combination of parts that contains, at the time of importation, all of the necessary parts to fully assemble a final finished good and requires no further finishing or fabrication, such as cutting or punching, and is assembled 'as is' into a finished product. An imported product will not be considered a 'finished goods kit' and therefore excluded from the scope of the investigation merely by including fasteners such as screws, bolts, *etc.* in the packaging with an aluminum extrusion product.

The scope also excludes aluminum alloy sheet or plates produced by other than the extrusion process, such as aluminum products produced by a method of casting. Cast aluminum products are properly identified by four digits with a decimal point between the third and fourth digit. A letter may also precede the four digits. The following Aluminum Association designations are representative of aluminum alloys for casting: 208.0, 295.0, 308.0, 355.0, C355.0, 356.0, A356.0, A357.0, 360.0, 366.0, 380.0, A380.0, 413.0, 443.0, 514.0, 518.1, and 712.0. The scope also excludes pure, unwrought aluminum in any form.

The scope also excludes collapsible tubular containers composed of metallic elements corresponding to alloy code 1080A as designated by the Aluminum Association where the tubular container (excluding the nozzle) meets each of the following dimensional characteristics: (1) length of 37 millimeters (mm) or 62 mm, (2) outer diameter of 11.0 mm or 12.7 mm, and (3) wall thickness not exceeding 0.13 mm.

Also excluded from the scope of these *Orders* are finished heat sinks. Finished heat sinks are fabricated heat sinks made from aluminum extrusions the design and production of which are organized around meeting certain specified thermal performance requirements and which have been fully, albeit not necessarily individually, tested to comply with such requirements.

Imports of the subject merchandise are provided for under the following categories of the Harmonized Tariff Schedule of the United States (HTSUS): 7604.21.0000, 7604.29.1000, 7604.29.3010, 7604.29.3050, 7604.29.5030, 7604.29.5060,

7608.20.0030, and 7608.20.0090. The subject merchandise entered as parts of other aluminum products may be classifiable under the following additional Chapter 76 subheadings: 7610.10, 7610.90, 7615.19, 7615.20, and 7616.99 as well as under other HTSUS chapters. In addition, fin evaporator coils may be classifiable under HTSUS numbers: 8418.99.80.50 and 8418.99.80.60.

Additional subject products may be classifiable under the following HTS categories: 7615.19.10, 7615.19.30, 7615.19.50, 7615.19.70, 7615.19.90, 7616.99.10, 7616.99.50, 8302.10.3000, 8302.10.6030, 8302.10.6060, 8302.10.6090, 8302.30.3010, 8302.30.3060, 8302.41.3000, 8302.41.6015, 8302.41.6045, 8302.41.6050, 8302.41.6080, 8302.42.3010, 8302.42.3015, 8302.42.3065, 8302.49.6035, 8302.49.6045, 8302.49.6055, 8302.49.6085, 8302.50.0000, 8302.60.9000, 8306.30.0000, 8419.90.1000, 8479.89.98, 8479.90.94, 8513.90.20, 9403.10.00, 9403.20.00, 9403.90.1040, 9403.90.1050, 9403.90.1085, 9403.90.2540, 9403.90.2580, 9403.90.4005, 9403.90.4010, 9403.90.4060, 9403.90.5005, 9403.90.5010, 9403.90.5080, 9403.90.6005, 9403.90.6010, 9403.90.6080, 9403.90.7005, 9403.90.7010, 9403.90.7080, 9403.90.8010, 9403.90.8015, 9403.90.8020, 9403.90.8030, 9403.90.8041, 9403.90.8051, 9403.90.8061, 9506.11.4080, 9506.51.4000, 9506.51.6000, 9506.59.4040, 9506.70.2090, 9506.91.0010, 9506.91.0020, 9506.91.0030, 9506.99.0510, 9506.99.0520, 9506.99.0530, 9506.99.1500, 9506.99.2000, 9506.99.2580, 9506.99.2800, 9506.99.6080, 9507.30.2000, 9507.30.4000, 9507.30.6000, and 9507.90.6000.

While HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of these *Orders* is dispositive.

Initiation of Changed Circumstances Reviews and Consideration of Revocation of the Orders in Part

Pursuant to section 751(b) of the Tariff Act of 1930, as amended (the Act), the Department will conduct a changed circumstances review upon receipt of a request from an interested party which shows changed circumstances sufficient to warrant a review of an order.² Section 782(h)(2) of the Act and 19 CFR 351.222(g)(1)(i) provide that the

² See also 19 CFR 351.216.

Department may revoke an order (in whole or in part) if it determines that producers accounting for substantially all of the production of the domestic like product have expressed a lack of interest in the order, in whole or in part. In addition, in the event the Department determines that expedited action is warranted, 19 CFR 351.221(c)(3)(ii) permits the Department to combine the notices of initiation and preliminary results.

In its administrative practice, the Department has interpreted "substantially all" to represent producers accounting for at least 85 percent of the total U.S. production of the domestic like product covered by the order.³

In the letter attached to 3M's June 20, 2013, submission, the AEC states that it represents the "vast majority of U.S. domestic aluminum extrusions producers." Based on the information provided by AEC in 3M's submissions, the Department has determined that there exist changed circumstances sufficient to warrant review of the *Orders*.⁴ However, because the statement provided by AEC in 3M's submission does not indicate whether AEC accounts for substantially all of domestic aluminum extrusion production, we are not combining this notice of initiation with a preliminary determination pursuant to 19 CFR 351.221(c)(3)(ii). Interested parties are, therefore, requested to address the issue of domestic industry support of this partial revocation of the *Orders* in their comments. This notice of initiation will accord all interested parties an opportunity to address these proposed partial revocations.

Accordingly, we are notifying the public that we are considering a request to revoke the *Orders*, in part, with respect to certain rectangular wire.

Public Comment

Interested parties are invited to provide comment or additional factual information regarding these changed circumstance reviews, including comments concerning industry support. Submissions may be submitted no later than 14 days after the date of publication of this notice. Responses to

³ See, e.g., *Certain Cased Pencils From the Peoples' Republic of China: Initiation and Preliminary Results of Antidumping duty Changed Circumstances Review, and Intent To Revoke Order in Part*, 77 FR 42276 (July 18, 2012) (*Pencils*), unchanged in *Certain Cased Pencils From the People's Republic of China: Final Results of Antidumping Duty Changed Circumstances Review, and Determination To Revoke Order, in Part*, 77 FR 53176 (August 31, 2012).

⁴ See section 751(b) of the Act and 19 CFR 351.216(d).

those submissions may be filed no later than 10 days thereafter in accordance with 19 CFR 351.301(c)(1). All submissions must be filed electronically using Import Administration's AD and CVD Centralized Electronic Service System (IA ACCESS).⁵ An electronically filed document must be received successfully in its entirety by the Department's electronic records system, IA ACCESS, by 5 p.m. Eastern Time of the deadlines set forth in this notice.

The Department will issue the preliminary results of these changed circumstances reviews, in accordance with 19 CFR 351.221(c)(3), which will set forth the factual and legal conclusions upon which are preliminary results are based, and a description of any action proposed based on those results. Pursuant to 19 CFR 351.221(b)(4)(ii), interested parties will have an opportunity to comment on the preliminary results of the review. In accordance with 19 CFR 351.216(e), the Department will issue the final results of its AD changed circumstance review within 270 days after the date on which the review is initiated.

This initiation is published in accordance with sections 751(b)(1) of the Act and 19 CFR 351.216(b) and 351.221(b)(1).

Dated: August 14, 2013.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Comprehensive Data Collection on Fishing Dependence of Alaska Communities

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before October 21, 2013.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Amber Himes, (206) 526-4221 or Amber.Himes@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The purpose of this data collection program is to improve commercial fisheries socio-economic data for North Pacific fisheries, using the community as the unit of reporting and analysis. Communities are often the focus of policy mandates (e.g., National Standard 8 of the Magnuson-Stevens Fisheries Management Act (MSA), social impact assessments under the National Environmental Policy Act and MSA, North Pacific Fishery Management Council (NPFMC) programmatic management goals, etc.) and are frequently a recognized stakeholder in NPFMC deliberations and programs. However, much of the existing commercial socio-economic data is collected and organized around different units of analysis, such as counties (boroughs), fishing firms, vessels, sectors, and gear groups. It is often difficult to aggregate or disaggregate these data for analysis at the individual community or regional level. In addition, at present, some relevant community level socio-economic data are simply not collected at all. The NPFMC, the Alaska Fisheries Science Center (AFSC), and community stakeholder organizations, have identified ongoing collection of community level economic and socioeconomic information, specifically related to commercial fisheries, as a priority.

The proposed data collection is a continuation of a program collecting data since 2011. Data collected includes information on community revenues based in the fisheries economy, population fluctuations, vessel expenditures in ports, fisheries infrastructure available in the community, support sector business operations in the community, community participation in fisheries

management, effects of fisheries management decisions on the community, and demographic information on commercial fisheries participants from the community. The information collected in this program will capture the most relevant and pressing types of data needed for socio-economic analyses of communities.

II. Method of Collection

The method of data collection will be a survey sent by mail (and by email where possible).

III. Data

OMB Control Number: 0648-0626.

Form Number: None.

Type of Review: Regular submission (extension of a currently approved information collection).

Affected Public: State, local, or tribal government.

Estimated Number of Respondents: 500.

Estimated Time per Response: 1 hour.

Estimated Total Annual Burden Hours: 521.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.
