

$$\text{Average cost per inspection} = \frac{\text{Total cost of VSP}}{\text{Weighted number of annual inspections}}$$

The average cost per inspection is multiplied by size and cost factors to determine the fee for vessels in each size category. The size and cost factors were established in the fee schedule published in the **Federal Register** on July 17, 1987 (52 FR 27060). The fee schedule was most recently published in the **Federal Register** on August 21, 2012 (77 FR 50511). The size and cost factors for FY 2014 are presented in Appendix A.

#### Fee

The fee schedule (Appendix A) will be effective October 1, 2013, through September 30, 2014. The fee schedule (Appendix A) will be effective October 1, 2013, through September 30, 2014. The increase in fees is required due to administrative structure support costs within HHS/CDC. The last change in VSP inspection fees was October 1, 2006.

If travel expenses or other charges to VSP change, the fee schedule may need to be adjusted before September 30, 2014. If a fee adjustment is necessary, HHS/CDC will publish a notice in the **Federal Register** with the amended fee schedule (Appendix A) as soon as possible and at least 30 days before the effective date.

#### Applicability

The fees will apply to all passenger cruise vessels for which inspections are conducted as part of HHS/CDC's VSP.

Dated: August 15, 2013.

*Director, Division of Executive Secretariat,  
Centers for Disease Control and Prevention.*
