Nevertheless, the FAA notes potential pitfalls that could accompany the recommendations of the anonymous commenter. For example, the commenter’s definition of an aviation community user could include the flight department of a company that is interested in the aircraft movements of a competitor’s aircraft. This could presumably thwart a reason that the competing airspace user sought ASDI blocking in the first place. In addition, the FAA has not previously agreed that ASDI subscribers can display the historical movements of blocked aircraft. Aside from the absence of a clear line as to when such data becomes historical, the FAA did not propose to permit ASDI subscribers to retransmit the historical movements of blocked aircraft, and the commenter’s suggestion therefore falls outside the scope of the proposal.

III. Conclusions

With respect to the procedures for aircraft owner and operator requests to block and unblock aircraft from inclusion in the FAA’s ASDI data feed, the FAA concludes as follows:

1. Requestors. The FAA will honor each written request of an aircraft owner and operator, submitted in accordance with paragraphs 2 and 3 to block or unblock their aircraft’s appearance in the FAA’s public ASDI data feed. Aircraft owners and operators may submit their request on their own behalf, or they may do so through a legally authorized agent, including an attorney or an aircraft management company with a fiduciary duty to carry out the owner’s or operator’s express wishes with respect to the aircraft.

2. Substance of Requests. To assist the FAA in processing aircraft owner or operator requests promptly, all requests related to an aircraft’s ASDI blocking or unblocking must include the following information:

• The name of the requestor;
• the registration number(s) of the aircraft to be blocked or unblocked;
• a certification that the requestor is the owner or operator of the specified aircraft or is a legally authorized representative of the aircraft owner or operator;
• a telephone number or electronic mail address to which the FAA can direct any questions about the request; and
• for a request to block one or more aircraft, a statement indicating the requestor’s desired level of ASDI blocking—either at the FAA source or at the ASDI subscriber level.

3. Addresses. The FAA’s primary electronic mailbox for all aircraft blocking and unblocking requests and for related inquiries directed to the ASDI blocking program is ASDIBlock@faa.gov. The FAA will also accept aircraft block and unblock requests submitted by regular mail at: FAA ASDI Blocking Request; ATO System Operation Services, AJR–0; Wilbur Wright Building, Room 3E1500; 600 Independence Avenue SW; Washington, DC 20597.

4. FAA Monthly Implementation. The FAA implements the ASDI block list updates on the first Thursday of each month. As a result, requests that the FAA receives on or before the 15th of the preceding month are likely to be processed in time to take effect in the month after the FAA receives them. However, it is possible that the volume of requests in a given month, a requestor’s timeliness, or issues with the completeness and accuracy of the information that the FAA receives could preclude the FAA from processing some requests in time for them to take effect in the month following their submission. In that event, the FAA will process all requests in the order in which the FAA receives them, to the extent that it is possible.

5. FAA Treatment of Aircraft That Are Currently Blocked. Any aircraft that is currently on the ASDI block list, either by virtue of a certified security concern submitted after June 3, 2011, or a request submitted under the FAA’s interim ASDI block policy, will remain indefinitely on the ASDI block list when the policies in this document take effect. It is not necessary for the owners or operators of these aircraft to resubmit their requests, unless they wish to change the blocking status of their aircraft or amend the level at which their aircraft is blocked.

Issued in Washington, DC, on August 14, 2013.

J. David Grizzle,
Chief Operating Officer, ATO.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. 14 CFR part 125 prescribes requirements for issuing operating certificates and for appropriate operating rules. In addition to the statutory basis, the collection of this information is necessary to issue, reissue, or amend applicant’s operating certificates and operations specifications.

DATES: Written comments should be submitted by October 21, 2013.

FOR FURTHER INFORMATION CONTACT: Kathy DePaepe at (405) 954–9362, or by email at: Kathy.DePaepe@faa.gov.

SUPPLEMENTARY INFORMATION:
OMB Control Number: 2120–0085.
Title: Certification and Operations.
Form Numbers: There are no FAA forms associated with this collection.
Type of Review: Renewal of an information collection.

Background: 14 CFR part 125 prescribes requirements for leased aircraft, aviation service firms, and air travel. A letter of application and related documents which set forth an applicant’s ability to conduct operations in compliance with the provisions of 14 CFR part 125 are submitted to the appropriate Flight Standards District Office (FSDO). Inspectors in FAA FSDO’s review the submitted information to determine certificate eligibility.

Respondents: Approximately 163 certificated operators.
Frequency: Information is collected on occasion.
Estimated Average Burden per Response: 1.33 hours.
Estimated Total Annual Burden: 61.388 hours.

ADDRESSES: Send comments to the FAA at the following address: Ms. Kathy DePaepe, Room 126B, Federal Aviation Administration, AES–200, 6500 S MacArthur Blvd., Oklahoma City, OK 73169.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA’s performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your
comments in the request for OMB’s clearance of this information collection.  

Issued in Washington, DC, on August 14, 2013.

Albert R. Spence,
FAA Assistant Information Collection Clearance Officer, IT Enterprises Business Services Division, AES–200.

Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Airports Grants Program

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The FAA collects information from airport sponsors and planning agencies in order to administer the Airports Grants Program. Data is used to determine eligibility, ensure proper use of Federal Funds, and ensure project accomplishment.

DATES: Written comments should be submitted by October 21, 2013.

FOR FURTHER INFORMATION CONTACT: Kathy DePaepe at (405) 954–9362, or by email at: Kathy.A.DePaepe@faa.gov.

SUPPLEMENTARY INFORMATION:
OMB Control Number: 2120–0569.
Title: Airports Grants Program.
Type of Review: Renewal of an information collection.
Background: Codification of Certain U.S. Transportation Laws at 49 U.S.C. (Pub. L. 103–272), which is referred to as the “Act,” provides funding for airport planning and development projects at airports included in the National Plan of Integrated Airport Systems. The Act also authorizes funds for noise compatibility planning and to carry out noise compatibility programs. The information required by this program is necessary to protect the Federal interest in safety, efficiency, and utility of the Airport. Data is collected to meet report requirements of 49 CFR part 18 for financial management and performance monitoring. Information is collected in the application, and grant agreement amendments; financial management; and performance reporting. Respondents: Approximately 1,950 sponsors and planning agencies for grant projects. Frequency: Information is collected on occasion.
Estimated Average Burden per Response: 6.75 hours.
Estimated Total Annual Burden: 80,569 hours.

ADDRESSES: Send comments to the FAA at the following address: Ms. Kathy DePaepe, Room 126B, Federal Aviation Administration, AES–200, 6500 S. MacArthur Blvd., Oklahoma City, OK 73169.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA’s performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB’s clearance of this information collection.

Issued in Washington, DC, on August 14, 2013.

Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Experimental Permits for Reusable Suborbital Rockets

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The FAA collects information from applicants for experimental permits in order to determine whether they satisfy the requirements for obtaining an experimental permit under 14 CFR part 437.

DATES: Written comments should be submitted by October 21, 2013.

FOR FURTHER INFORMATION CONTACT: Kathy DePaepe at (405) 954–9362, or by email at: Kathy.DePaepe@faa.gov.

SUPPLEMENTARY INFORMATION:
OMB Control Number: 2120–0722.
Title: Experimental Permits for Reusable Suborbital Rockets.
Form Numbers: There are no FAA forms associated with this collection.
Type of Review: Renewal of an information collection.
Background: 14 CFR part 437 established requirements for the FAA’s authority to issue experimental permits for reusable suborbital rockets to authorize launches for the purpose of research and development, crew training and showing compliance with the regulations. The information collected includes data required for performing a safety review, which includes a technical assessment to determine if the applicant can launch a reusable suborbital rocket without jeopardizing public health and safety and the safety of property. This information collection requirement is intended for incorporating acquired data into the experimental permit, which then becomes binding on the launch or reentry operator. The applicant is required to submit information that enables FAA to determine, before issuing a permit, if issuance of the experimental permit would jeopardize the foreign policy or national security interests of the U.S.
Respondents: Approximately 10 applicants for experimental permits.
Frequency: Information is collected on occasion.
Estimated Average Burden per Response: 18.6 hours.
Estimated Total Annual Burden: An estimated 2,567 hours annually.

ADDRESSES: Send comments to the FAA at the following address: Ms. Kathy DePaepe, Room 126B, Federal Aviation Administration, AES–200, 6500 S. MacArthur Blvd., Oklahoma City, OK 73169.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA’s performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be
