The United States Patent and Trademark Office (USPTO) will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Title: Patent Term Extension.

Form Number(s): None.

Agency Approval Number: 0651–0020.

Type of Request: Revision of a currently approved collection.

Burden: 7,252 hours annually.

Number of Respondents: 1,950 responses per year.

Avg. Hours per Response: The USPTO estimates that it will take the public from 1 to 25 hours, depending on the complexity and type of filing, to gather the necessary information, prepare the appropriate documents, and submit the information to the USPTO.

Separate from the extension provisions of 35 U.S.C. 156, the USPTO may in some cases extend the term of an original patent due to certain delays in the prosecution of the patent application, including delays caused by interference proceedings, secrecy orders, or appellate review by the Patent Trial and Appeal Board or a Federal court in which the patent is issued pursuant to a decision reversing an adverse determination of patentability. The patent term provisions of 35 U.S.C. 154(b), as amended by Title IV, Subtitle D of the Intellectual Property and Communications Omnibus Reform Act of 1999, require the USPTO to notify the applicant of the patent term adjustment in the notice of allowance and give the applicant an opportunity to request reconsideration of the USPTO’s patent term adjustment determination. The USPTO administers 35 U.S.C. 154 through 37 CFR 1.701–1.705.

The public uses this information collection to file requests related to patent term extensions and reconsideration or reinstatement of patent term adjustments. The information in this collection is used by the USPTO to consider whether an applicant is eligible for a patent term extension or reconsideration of a patent term adjustment and, if so, to determine the length of the patent term extension or adjustment.

Affected Public: Businesses or other for-profits; not-for-profit institutions.

Frequency: On occasion.

Respondent’s Obligation: Required to obtain or retain benefits.

OMB Desk Officer: Nicholas A. Fraser, email: Nicholas_A_Fraser@omb.eop.gov.

Once submitted, the request will be publicly available in electronic format through the Information Collection Review page at www.reginfo.gov.

Quantitative Messaging Research

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice.

SUMMARY: The Commodity Futures Trading Commission (“CFTC” or “Commission”) is announcing an opportunity for public comment on a proposed collection of information by the agency. Under the Paperwork Reduction Act (“PRA”), 44 U.S.C. 3501 et seq., Federal agencies are required to publish notice in the Federal Register concerning each proposed collection of information and to allow 60 days for public comment. The CFTC’s Office of Consumer Outreach ("OCO") develops campaigns to change consumer behaviors so that consumers can better avoid fraud as defined under the Commodities Exchange Act. The CFTC is posing survey questions to the public. This survey will include screening questions to identify the correct respondents and questions to determine optimal messages to help consumers identify, avoid, and report financial fraud as part of a consumer-facing anti-fraud campaign. This survey will follow qualitative message testing research (for which CFTC received fast-track OMB approval) and is necessary to identify, with statistical validation, which of these messages most effectively help consumers to identify, avoid, and report financial fraud.
