Paragraph 5000  Class D airspace.

* * * * *

AEA MD  Salisbury, MD [Amended]

Salisbury-Ocean City Wicomico Regional Airport, MD

(Lat. 38°20′25″ N., long. 75°30′34″ W.)

That airspace extending upward from the surface to and including 2,500 feet MSL within a 4.3-mile radius of Salisbury-Ocean City Wicomico Regional Airport. This Class D airspace area is effective during specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

Paragraph 6002  Class E airspace designated as surface areas.

* * * * *

AEA MD E2  Salisbury, MD [Amended]

Salisbury-Ocean City Wicomico Regional Airport, MD

(Lat. 38°20′25″ N., long. 75°30′34″ W.)

That airspace extending upward from the surface within a 4.3-mile radius of Salisbury-Ocean City Wicomico Regional Airport. This Class E airspace area is effective during specific dates and times established in advance by a Notice to Airmen.

Paragraph 6004  Class E airspace designated as an extension to a Class D surface area.

* * * * *

AEA MD E4  Salisbury, MD [New]

Salisbury-Ocean City Wicomico Regional Airport, MD

(Lat. 38°20′25″ N., long. 75°30′34″ W.)

That airspace extending upward from the surface within 2.5 miles each side of a 133° bearing from Salisbury-Ocean City Wicomico Regional Airport extending from the 4.3-mile radius of the airport to 7 miles southeast of the airport, and 2.5 miles each side of a 51° bearing from the airport, extending from the 4.3-mile radius of the airport to 7 miles northeast of the airport, and 2.5 miles each side of a 200° bearing from the airport, extending from the 4.3-mile radius of the airport to 7 miles southwest of the airport.

Paragraph 6005  Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

AEA MD E5  Salisbury, MD [Amended]

Salisbury-Ocean City Wicomico Regional Airport, MD

(Lat. 38°20′25″ N., long. 75°30′34″ W.)

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Salisbury-Ocean City Wicomico Regional Airport.
The Proposal

The FAA is considering an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 to establish Class E airspace at Aliceville, AL, providing the controlled airspace required to support the new RNAV (GPS) standard instrument approach procedures for George Downer Airport. Controlled airspace extending upward from 700 feet above the surface is required for IFR operations within a 7-mile radius of the airport.

Class E airspace designations are published in Paragraph 6005 of FAA order 7400.9W, dated August 8, 2012, and effective September 15, 2012, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This proposed rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This proposed regulation is within the scope of that authority as it would establish Class E airspace at George Downer Airport, Aliceville, AL.

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, “Environmenal Impacts: Policies and Procedures” prior to any FAA final regulatory action.

Lists of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND CLASS E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9W, Airspace Designations and Reporting Points, dated August 8, 2012, effective September 15, 2012, is amended as follows:

Paragraph 6005 . Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

ASO AL E5 Aliceville, AL [New]

George Downer Airport, AL

(Lat. 33°06′23″ N, long. 88°11′52″ W.)

That airspace extending upward from 700 feet above the surface within a 7-mile radius of George Downer Airport.

Issued in College Park, Georgia, on August 16, 2013.

Kip B. Johns,

Manager, Operations Support Group, Eastern Service Center, Air Traffic Organization.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

Proposed Amendment of Class E Airspace; Cut Bank, MT

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify Class E airspace at Cut Bank Municipal Airport, Cut Bank, MT. Controlled airspace is necessary to accommodate aircraft using new Area Navigation (RNAV) Global Positioning System (GPS) standard instrument approach procedures at the airport. The geographic coordinates of the airport would be adjusted in the respective Class E airspace areas. The FAA is proposing this action to enhance the safety and management of aircraft operations at the airport.

DATES: Comments must be received on or before October 7, 2013.

FOR FURTHER INFORMATION CONTACT: Eldon Taylor, Federal Aviation Administration, Operations Support Group, Western Service Center, 1601 Lind Avenue SW., Renton, WA 98057; telephone (425) 203–4537.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (FAA Docket No. FAA 2013–0664 and Airspace Docket No. 13–ANM–22) and be submitted in triplicate to the Docket Management System (see ADDRESSES section for address and phone number). You may also submit comments through the Internet at http://www.regulations.gov.

Commenters wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed stamped postcard on which the following statement is made: “Comments to FAA Docket No. FAA–2013–0664 and Airspace Docket No. 13–ANM–22”. The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the specified closing date for comments will be considered before
