Notice of Intent To Initiate Public Scoping and Prepare an Environmental Impact Statement for Area F of the Rosebud Coal Mine, Rosebud and Treasure Counties, Montana

AGENCY: Office of Surface Mining Reclamation and Enforcement, U.S. Department of the Interior.

ACTION: Notice of Intent to initiate public scoping and prepare an Environmental Impact Statement.

SUMMARY: In accordance with the National Environmental Policy Act of 1969 (NEPA), the Council on Environmental Quality's (CEQ) regulations for implementing NEPA, and the Department of the Interior's (DOI) NEPA regulations, the Office of Surface Mining Reclamation and Enforcement (OSM), Western Region (WR), Denver, Colorado, intends to prepare an Environmental Impact Statement (EIS). The EIS, to be prepared in conjunction with the Montana Department of Environmental Quality (DEQ) pursuant to the Montana Environmental Policy Act (MEPA) and its implementing rules, will analyze the environmental impacts of the proposed action to permit the operation and reclamation of the proposed Area F expansion of the Rosebud Coal Mine.

A single EIS that meets the requirements of both MEPA and NEPA and evaluates all components of the proposed project will be prepared. OSM and DEQ are requesting public comments on the scope of the EIS and significant issues that should be addressed in the EIS.

DATES: The public scoping period will be 45 days in length. Comments concerning the proposed action must be postmarked by October 11, 2013, to be considered in preparing the draft EIS.

OSM, in conjunction with DEQ, will hold a public scoping meeting in Colstrip, Montana, on Thursday, September 12, 2013, from 3pm-7pm at

the Isabel Bills Community Learning Center. The meeting will include an open house from 3pm-4pm with the opportunity to view project information. There will be brief presentations from OSM regarding the EIS process and from Western Energy Company (WEC) regarding the proposed project. Presentations will begin at 4pm followed by the opportunity for the public to provide oral and/or written testimony. If you require reasonable accommodations to attend the meeting, contact the person listed under **FOR FURTHER INFORMATION CONTACT** at least one week before the meeting.

The draft EIS is expected to be released for public comment in the second quarter of 2014, and the final EIS is expected by the second quarter of 2015.

SUPPLEMENTARY INFORMATION: The project area is 12 miles west of Colstrip, Montana, in Rosebud and Treasure counties. The surface of the permit area is entirely privately owned, and the subsurface minerals are either privately

or federally held. WEC, a subsidiary of Westmoreland Coal Company, operates the Rosebud Mine.

WEC submitted a permit application (C2011003F) to DEQ in October 2011 for Area F, a proposed expansion of the mine. DEQ determined that WEC's revised application was administratively complete on August 1, 2012, and began its review for technical adequacy, which is currently ongoing. This permit application involves Federal lands. Pursuant to 30 CFR 746, no mining shall be conducted on Federal lands until the Secretary has approved the mining plan. The decision to approve a mining plan for the proposed Area F is a Federal action and NEPA analysis will be required.

A single EIS that meets the requirements of both MEPA and NEPA and evaluates all components of the proposed project will be prepared. This Notice of Intent initiates the scoping process, which guides the development of the EIS. At this stage of the planning process, site-specific public comments are being requested to determine the scope of the analysis and identify significant issues and alternatives to the proposed action. OSM and DEQ are requesting public comments on the scope of the EIS and significant issues that should be addressed in the EIS.

Rosebud Mine

The Rosebud Mine is a 25,576-acre surface coal mine producing low-sulfur subbituminous coal. The proposed permit area for Area F would add 6,746 acres (4,287 acres would be disturbed by the mining operations, highwall reduction, soil storage, scoria pits, haul road construction, and other miscellaneous disturbances) in Township 2 North, Range 38 and 39 East, and Township 1 North, Range 39 East. If approved, Area F would add coal reserves to the existing Rosebud Mine and extend mine life by an estimated 19 years.

Current land uses include grazing land, pastureland, cropland, and wildlife habitat. Tributaries of Horse Creek and West Fork Armells Creek, including Black Hank Creek, Donley Creek, Robbie Creek, and McClure Creek (all of which lie within the drainage of the Yellowstone River), drain the proposed mine area. A ridge in the western portion of the proposed mine area divides the Horse Creek and West Fork Armells Creek drainages.

Proposed Action

Beginning in 2015, WEC proposes to mine 2,164 acres within the proposed 6,746-acre Area F permit area and would complete mining operations by
