

however, were adopted after 2007, when the exemptions at issue were initially granted. Consequently, the new provisions played no part in the NRC's decision-making on the current decision to grant the exemptions.

Publication of the draft EA and FONSI for the requested exemptions included a brief discussion of this regulatory amendment to inform the public of a topically-relevant change in the NRC's regulations occurring since the NRC approved the requested exemptions in 2007 (78 FR 20144; April 3, 2013). The NRC included this information because these changes will be relevant to future exemption requests, but did not suggest that 10 CFR 51.22(c)(9) applies to the requested exemptions. Moreover, the NRC observed in the discussion that "[a]lthough NRC approval of exemptions that meet the criteria of this section no longer require preparation of an EA/FONSI, the NRC retains discretion to prepare an EA and FONSI, including an opportunity for public comment, where special circumstances exist." Finally, we note that the NRC recently published an editorial correction to 10 CFR 51.22(c)(9) (78 FR 34245; June 7, 2013) to clarify that this provision categorically excludes certain kinds of stand-alone exemptions from environmental review, not just exemptions issued as a license amendment.

III. Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letters dated July 24, 2006, April 30, 2007, May 23, 2007, and August 16, 2007 (ADAMS Accession Nos. ML062140057, ML071280504, ML071520177, ML072400369, respectively); the EA and FONSI, dated September 24, 2007 (ADAMS Accession No. ML072110018); the NRC letter dated September 28, 2007, approving the exemption (ADAMS Accession No. ML072410254); and the draft EA and FONSI, dated March 26, 2013 (ADAMS Accession No. ML13066A275).
