Federal Highway Administration

Revised Notice of Intent To Prepare an Environmental Impact Statement: Milwaukee County, Wisconsin

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Revised notice of intent.

SUMMARY: The FHWA is issuing this revised Notice of Intent to advise the public that the project limits for the I-94 East-West Corridor Environmental Impact Statement (EIS) will be extended; the project is located in Milwaukee County, Wisconsin.

FOR FURTHER INFORMATION CONTACT:

Bethaney Bacher-Gresock, Environmental Program Manager, FHWA Wisconsin Division Office, City Center West, 525 Junction Road, Suite 8000, Madison, WI 53717; Telephone: (608) 662-2119.

SUPPLEMENTARY INFORMATION:

The FHWA, in cooperation with the Wisconsin Department of Transportation (WisDOT), issued a Notice of Intent May 18, 2012 to prepare an EIS for proposed improvements in the I-94 corridor between 70th Street on the west and 25th Street on the east (2.85 miles). This revised Notice of Intent extends the eastern project limits from 25th Street to 16th Street; the EIS for the I-94 East-West Corridor project now extends from 70th Street on the west to 16th Street on the east (3.5 miles). The extension is in response to additional work necessary east of 25th Street to accommodate alternatives that would tie back into I-94 near 16th Street and better match the recently reconstructed Marquette Interchange.

The purpose of the project remains the same, is to replace deteriorating pavement and bridges and improve safety, while identifying methods to accommodate existing and projected future traffic volumes; this may result in the full reconstruction and redesign of the I-94 corridor. The EIS will also evaluate interchanges with I-94 at 68th Street/70th Street, Hawley Road, Mitchell Boulevard, US 41/STH 341 (Stadium Interchange), 35th Street and 26th Street/Saint Paul Avenue as well as US 41 at Wisconsin Avenue/Wells Street. The EIS will be developed in accordance with 23 U.S.C. 139, 23 CFR 771, and 40 CFR parts 1500-1508.

Public involvement is a critical component of the National Environmental Policy Act (NEPA) project development process and will continue to occur throughout the development of the EIS. Specific efforts
