

2001 was published on December 2, 2002 (67 FR 71537).

In October 2002, DARRP hired the accounting firm of Cotton and Company LLP (Cotton) to review and certify DARRP costs incurred on cases for purposes of cost recovery and to develop indirect rates for FY 2002 and subsequent years. As in the prior years, Cotton concluded that the cost accounting system and allocation practices of the DARRP component organizations are consistent with federal accounting requirements. Consistent with R&M's previous analyses, Cotton also determined that the most appropriate indirect allocation method continues to be the Direct Labor Cost Base for all three DARRP component organizations. The Direct Labor Cost Base is computed by allocating total indirect cost over the sum of direct labor dollars, plus the application of NOAA's leave surcharge and benefits rates to direct labor. Direct labor costs for

contractors from I.M. Systems Group (IMSG) were included in the direct labor base because Cotton determined that these costs have the same relationship to the indirect cost pool as NOAA direct labor costs. IMSG provided on-site support to the DARRP in the areas of injury assessment, natural resource economics, restoration planning and implementation, and policy analysis. IMSG continues to provide on-site support to the DARRP. Starting in FY 2010, contractors from Genwest provide on-site support for cost documentation. Subsequent federal notices have been published in the **Federal Register** as follows:

- FY 2002, published on October 6, 2003 (68 FR 57672)
- FY 2003, published on May 20, 2005 (70 FR 29280)
- FY 2004, published on March 16, 2006 (71 FR 13356)
- FY 2005, published on February 9, 2007 (72 FR 6221)

- FY 2006, published on June 3, 2008 (73 FR 31679)
- FY 2007 and FY 2008, published on November 16, 2009 (74 FR 58948)
- FY 2009 and FY 2010, published on October 20, 2011 (76 FR 65182)
- FY 2011, published on September 17, 2012 (77 FR 57074)

Cotton's reports on these indirect rates can also be found on the DARRP Web site at [www.darrp.noaa.gov](http://www.darrp.noaa.gov).

Cotton reaffirmed that the Direct Labor Cost Base is the most appropriate indirect allocation method for the development of the FY 2012 indirect cost rates.

**The DARRP's Indirect Cost Rates and Policies**

The DARRP will apply the indirect cost rates for FY 2012 as recommended by Cotton for each of the DARRP component organizations as provided in the following table:

DARRP component organization	FY 2012 indirect rate (percent)
Office of Response and Restoration (ORR) .....	117.18
Restoration Center (RC) .....	59.80
General Counsel Natural Resources Section (GCNRS) .....	21.48

These rates are based on the Direct Labor Cost Base allocation methodology.

The FY 2012 rates will be applied to all damage assessment and restoration case costs incurred between October 1, 2011 and September 30, 2012. DARRP will use the FY 2012 indirect cost rates for future fiscal years, beginning with FY 2013, until subsequent year-specific rates can be developed.

For cases that have settled and for cost claims paid prior to the effective date of the fiscal year in question, the DARRP will not re-open any resolved matters for the purpose of applying the revised rates in this policy for these fiscal years. For cases not settled and cost claims not paid prior to the effective date of the fiscal year in question, costs will be recalculated using the revised rates in this policy for these fiscal years. Where a responsible party has agreed to pay costs using previous year's indirect rates, but has not yet made the payment because the settlement documents are not finalized, the costs will not be recalculated.
