

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****National Estuarine Research Reserve System**

AGENCY: Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

ACTION: Notice of approval of the Grand Bay, Mississippi and Delaware National Estuarine Research Reserve Management Plan Revisions.

SUMMARY: Notice is hereby given that the Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce approves the Grand Bay, Mississippi and the Delaware National Estuarine Research Reserve Management Plan Revisions. The revised management plans outline the administrative structure; the research, education, training, and stewardship goals of the reserve; and the plans for future land acquisition and facility development to support reserve operations.

The Grand Bay Reserve takes an integrated approach to management, linking research, education, training and stewardship functions to address high priority issues including climate change, threats to reserve resources and ecological functions, watershed development, and changes in water quality. Since the last management plan, the reserve has built out its core programs and monitoring infrastructure; constructed a L.E.E.D. certified Coastal Resources Center that includes laboratories, offices, classrooms, interpretative areas, and dormitories; and created interpretive trails.

With the approval of this management plan, the Grand Bay Reserve will decrease their total acreage from 18,400 acres to 18,049. The change is attributable to accuracy adjustments based on improved geographic information for the site. The revised management plan will serve as the guiding document for the 18,049 acre Grand Bay Reserve for the next five years.

The Delaware management plan focuses on improving the scientific understanding of estuarine and coastal ecosystems; improving public awareness and environmental literacy to enable environmentally sustainable

decision-making; and protecting, managing and restoring the reserve to serve as a model site for sustainable community stewardship. Notable changes in the revised plan include a boundary expansion, a new coastal training program, implementation of the Blackbird Creek Reserve Master Ecological Restoration Plan, the opening of the Blackbird Creek Stewardship Center and facility improvements to the St. Jones Coastal Training Center.

With the approval of this management plan, the Delaware Reserve will increase their total acreage from 4,930 acres to 6,206. The change is attributable to acquisition of two parcels, totaling 64.3 acres, and increased mapping accuracy. These parcels have high ecological value and provide increased opportunities for research, education, and restoration. The revised management plan will serve as the guiding document for the 6,206 acre Delaware Reserve for the next five years.

The Grand Bay, Mississippi Reserve Management Plan revision is available at (<http://grandbaynerr.org/reserve-management-plan>) and the Delaware Reserve Management Plan revision is available at (<http://de.gov/dnerr>).

SUPPLEMENTARY INFORMATION: The subject amendment to Permit No. 14325-02 is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

Permit No. 14325, issued on August 17, 2009 (74 FR 44822), authorizes taking of marine mammals during continuation of a long-term research program investigating various hypotheses for the decline or lack of recovery of Steller sea lions in Alaska.

The permit includes takes for: Incidental disturbance during aerial surveys; disturbance of animals on rookeries and haulouts during brand resighting surveys, and incidental to scat collection; capture for instrument attachment, branding, capture method development, physiological research, and sample collection; permanent marking of pups for long-term demographic and distribution studies; capture of older animals for physiological assessment; and attachment of scientific instruments to investigate foraging ecology, diving behavior and habitat use. The permit also authorizes unintentional mortality of Steller sea lions, and incidental harassment of harbor seals (*Phoca vitulina richardsi*), northern fur seals (*Callorhinus ursinus*), and California sea lions (*Zalophus californianus*). The permit was amended (to version no. 14325-01) on November 16, 2011, to change the identity of the Principal Investigator from Dr. Lorrie Rea to Michael Rehberg.

The permit was amended on July 12, 2012 (77 FR 38587), to include: manual restraint of pups in the eastern Distinct Population Segment (eDPS) and western DPS (wDPS); capture of adult Steller sea lions using remotely delivered immobilization agents; adding jugular blood draw/catheter location for sampling and Evans Blue injection; adding the intraperitoneal cavity to allowable deuterium injection sites; modifying time of year and number of takes for the Alsek/Akwe aerial surveys; and adding aerial surveys at Cape Newenham haulout and in the northern Bering Sea.

The permit holder requests an amendment to the permit to include: additional aerial surveys in the eDPS and wDPS; use of unmanned aircraft system to collect brand, entanglement, and population data; additional takes for non-target species (harbor seals, northern fur seals, and California sea lions) to accommodate the requested aerial and unmanned aircraft surveys.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activities proposed are consistent with the Preferred Alternative in the Final Programmatic Environmental Impact Statement for Steller Sea Lion and Northern Fur Seal Research (NMFS 2007), and that issuance of the permit would not have a significant adverse impact on the human environment.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal

Commission and its Committee of Scientific Advisors.

Dated: August 26, 2013.
