AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a maintenance plan update for the Lake County, Indiana sulfur dioxide (SO2) maintenance area. This plan update demonstrates that Lake County will maintain attainment of the 1971 SO2 national ambient air quality standard (NAAQS) through 2025. This maintenance plan update satisfies section 175A of the Clean Air Act (Act), and is consistent with the September 26, 2005, approval of the State’s redesignation request and maintenance plan for the Lake County, Indiana SO2 area.

DATES: Comments must be received on or before October 3, 2013.

SUPPLEMENTARY INFORMATION: In the Rules section of this Federal Register, EPA is approving Indiana’s state implementation plan submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. Virginia: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Virginia has applied to EPA for final authorization of revisions to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). EPA proposes to grant final authorization to Virginia. In the “Rules and Regulations” section of this Federal Register, EPA is authorizing the revisions by an immediate final rule. EPA did not make a proposal prior to the immediate final rule because we believe this action is not controversial and do not expect comments that oppose it. We have explained the reasons for this authorization in the preamble to the immediate final rule. Unless we receive written comments that oppose this authorization during the comment period, the immediate final rule will become effective on the date it establishes, and we will not take further action on this proposal. However, if we receive comments that oppose this action, or portions thereof, we will withdraw the relevant portions of the immediate final rule, and they will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for
