SUPPLEMENTARY INFORMATION:

I. Abstract

NTIA proposes to continue BroadbandMatch as an online resource for communities pursuing broadband projects and programs to advance the Obama Administration's goal of increased broadband deployment and use in the United States. The BroadbandMatch Web site began during the final funding round of NTIA's Broadband Technology Opportunities Program (BTOP) and the U.S. Department of Agriculture's Broadband Initiatives Program (BIP) as a tool for potential applicants to identify possible partners whose resources and expertise

could strengthen the project proposals. NTIA obtained Office of Management and Budget (OMB) approval to extend BroadbandMatch beyond the September 30, 2010 funding award deadline Congress established in the American Recovery and Reinvestment Act of 2009, Public Law 111-5, 123 Stat. 115 (2009) (Recovery Act), that authorized BTOP and BIP. NTIA believes BroadbandMatch has ongoing utility and ability to cost effectively advance the Administration's goals by facilitating sharing among BTOP grantees and others of best practices for completing successful broadband projects and facilitating partnerships to undertake new broadband projects. BroadbandMatch helps inexpensively to leverage Recovery Act investments to achieve the Administration's ongoing goal of ensuring that all Americans can access affordable, ubiquitous broadband service and develop the skills to use this empowering technology effectively.

II. Method of Collection

BroadbandMatch users access the Web site through an Internet browser and voluntarily complete a brief profile requesting: (1) The point of contact's name, organization, phone number, email address, and associated Web site URL; (2) the state(s) where the user seeks potential partners; the type(s) of partner(s) sought; and (3) a description of the project and the desired benefits of partnering. NTIA verifies the registrant's email address, which becomes the registrant's user name, and emails an assigned password. Registered users may then search the database for potential project partners by organization type, state(s) or keyword(s).
