SUPPLEMENTARY INFORMATION: This notice informs the public that HUD has submitted to OMB a request for approval of the information collection described in Section A. The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on June 26, 2013.

A. Overview of Information Collection

Title of Information Collection: Disaster Recovery Grant Reporting System.

OMB Approval Number: 2506-0165.

Type of Request: Revision of a currently approved collection.

Form Number: SF-424—Application for Federal Assistance.

Description of the need for the information and proposed use: The Disaster Recovery Grant Reporting (DRGR) System is a grants management system used by the Office of Community Planning and Development to monitor special appropriation grants under the Community Development Block Grant program. This collection pertains to Community Development Block Grant Disaster Recovery (CDBG-DR) and Neighborhood Stabilization Program (NSP) grant appropriations. The CDBG program is authorized under Title I of the Housing and Community Development Act of 1974, as amended. Following major disasters, Congress appropriates supplemental CDBG funds for disaster recovery. According to Section 104(e)(1) of the Housing and Community Development Act of 1974, HUD is responsible for reviewing grantees' compliance with applicable requirements and their continuing capacity to carry out their programs. Grant funds are made available to states and units of general local government, Indian tribes, and insular areas, unless provided otherwise by supplemental appropriations statute, based on their unmet disaster recovery needs.

Estimated Number of Respondents: Community Development Block Grant Disaster Recovery (CDBG-DR) Grants: The system has approximately 72 open CDBG disaster recovery grants in DRGR. HUD estimates an additional 40 grants as a result of the recent supplemental appropriation for Hurricane Sandy relief. One-time only submissions: The onetime only pre- and post-award submissions for the estimated 40 new DRSI grants resulting from Hurricane Sandy include standard forms, DRGR Action Plan, and required financial control documentation. Total hours are estimated at 505 at a cost of \$12,164. Recurring submissions: Recurring submissions include quarterly progress reports and voucher submissions. For average-sized grants, the Department estimates 13 minutes needed per voucher. CDBG-DR grantees process approximately 19 vouchers per year. This requires a record keeping and reporting burden of approximately 4 hours per grantee, per year. Larger CDBG-DR grantees take approximately 44 minutes for each voucher and submit

an average of 146 vouchers per year, resulting in approximately 106 burden hours per year, per grantee. Therefore, all CDBG-DR grantees collectively spend an estimated 2,721 hours submitting vouchers in the DRGR system for a total estimated annual voucher submission cost of \$65,575. Average-sized grantees spend an estimated 9 hours on each QPR, for a total of 3,240 hours. Large grantees spend an estimated 57 hours per QPR for a total of 5,016 hours. Therefore, all grantees collectively spend an estimated 8,256 hours per year submitting QPR data in DRGR. Total annual QPR submissions cost an estimated \$198,970. Grants: For the 577 active NSP grants in the DRGR system, the Department estimates 11 minutes per voucher Neighborhood Stabilization Program submission. NSP grantees process approximately 34 vouchers per year. This requires a record keeping and reporting burden of approximately 3,899 hours for an annual voucher submission cost of \$93,970. NSP grantees spend an estimated 4 hours per QPR submission, for a total of 9,232 hours for a total annual QPR submission costs \$222,491. Neighborhood Stabilization Program 3—Technical Assistance Grants: The DRGR system currently has 10 open NSP3-TA grants. Historical data on voucher and QPR submissions for technical assistance grants were extremely limited at the time this collection was being assembled. Therefore, the times used to calculate NSP grant cost burden will be applied to NSP3-TA grant cost burden. For 10 average-sized grants, the Department estimates 11 minutes per voucher. Grantees process approximately 38 vouchers per year. Total burden hours for all grantees over the course of the year is estimated at 380, for a total annual submission cost of \$1,648. 10 average-sized grantees spend approximately 4 hours submitting each QPR, for a total of 160 hours over the course of a year. Total annual QPR submission costs approximately \$3,856.

Background

The Act (16 U.S.C. 1531 *et seq.*) prohibits activities with endangered and threatened species unless a Federal permit allows such activity. Along with our implementing regulations in the Code of Federal Regulations (CFR) at 50 CFR 17, the Act provides for permits, and requires that we invite public comment before issuing these permits.

A permit granted by us under section 10(a)(1)(A) of the Act authorizes the permittee to conduct activities with U.S. endangered or threatened species for scientific purposes, enhancement of propagation or survival, or interstate commerce (the latter only in the event that it facilitates scientific purposes or enhancement of propagation or survival). Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.
