capabilities to support continued and substantial participation, possibly due to economic, regulatory, or other barriers. To be eligible to participate in the western Pacific community development program, a community must meet the criteria set forth in 50 CFR part 665.20, and submit a community development plan that describes the purposes and goals of the plan, the justification for proposed fishing activities, and the degree of involvement by the indigenous community members, including contact information. This collection of information provides NMFS and the Western Pacific Fishery Management Council with data to determine whether a community that submits a community development plan meets the regulatory requirements for participation in the program, and whether the activities proposed under the plan are consistent with the intent of the program, the Magnuson-Stevens Fishery Conservation and Management Act, and other applicable laws. The information is also important for evaluating potential impacts of the proposed community development plan activities on fish stocks, endangered species, marine mammals, and other components of the affected environment for the purposes of compliance with the National Environmental Policy Act, the Endangered Species Act and other applicable laws.

Affected Public: Business or other for-profit organizations.

Frequency: On occasion.

DEPARTMENT OF COMMERCE

International Trade Administration

Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity To Request Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

Background

Each year during the anniversary month of the publication of an antidumping or countervailing duty order, finding, or suspended investigation, an interested party, as defined in section 771(9) of the Tariff Act of 1930, as amended (‘‘the Act’’), may request, in accordance with 19 CFR 351.213, that the Department of Commerce (‘‘the Department’’) conduct an administrative review of that antidumping or countervailing duty order, finding, or suspended investigation. All deadlines for the submission of comments or actions by the Department discussed below refer to the number of calendar days from the applicable starting date.

Respondent Selection

In the event the Department limits the number of respondents for individual examination for administrative reviews initiated pursuant to requests made for the orders identified below, the Department intends to select respondents based on U.S. Customs and Border Protection (‘‘CBP’’) data for U.S. imports during the period of review. We intend to release the CBP data under Administrative Protective Order (‘‘APO’’) to all parties having an APO within five days of publication of the initiation notice and to make our decision regarding respondent selection within 21 days of publication of the initiation Federal Register notice. Therefore, we encourage all parties interested in commenting on respondent selection to submit their APO applications on the date of publication of the initiation notice, or as soon thereafter as possible. The Department invites comments regarding the CBP data and respondent selection within five days of placement of the CBP data on the record of the review.

In the event the Department decides it is necessary to limit individual examination of respondents and conduct respondent selection under section 777A(c)(2) of the Act:

In general, the Department has found that determinations concerning whether particular companies should be ‘‘collapsed’’ (i.e., treated as a single entity for purposes of calculating antidumping duty rates) require a substantial amount of detailed information and analysis, which often require follow-up questions and analysis. Accordingly, the Department will not conduct collapsing analyses at the respondent selection phase of this review and will not collapse companies at the respondent selection phase unless there has been a determination to collapse certain companies in a previous segment of this antidumping proceeding (i.e., investigation, administrative review, new shipper review or changed circumstances review). For any company subject to this review, if the Department determined, or continued to treat, that company as collapsed with others, the Department will assume that such companies continue to operate in the same manner and will collapse them for respondent selection purposes. Otherwise, the Department will not collapse companies for purposes of respondent selection. Parties are requested to (a) identify which companies subject to review previously were collapsed, and (b) provide a citation to the proceeding in which they were collapsed. Further, if companies are requested to complete the Quantity and Value Questionnaire for purposes of respondent selection, in general each company must report volume and value data separately for itself. Parties should not include data for any other party, even if they believe they should be treated as a single entity with that other party. If a company was collapsed with another company or companies in the most recently completed segment of this proceeding where the Department considered collapsing that entity, complete quantity and value data for that collapsed entity must be submitted.

Deadline for Withdrawal of Request for Administrative Review

Pursuant to 19 CFR 351.213(d)(1), a party that has requested a review may withdraw that request within 90 days of the date of publication of the notice of initiation of the requested review. The regulation provides that the Department may extend this time if it is reasonable to do so. In order to provide parties additional certainty with respect to when the Department will exercise its discretion to extend this 90-day deadline, interested parties are advised that, with regard to reviews requested on the basis of anniversary months on or after September 2013, the Department does not intend to extend the 90-day deadline unless the requestor demonstrates that an extraordinary circumstance has prevented it from submitting a timely withdrawal request. Determinations by the Department to extend the 90-day deadline made on a case-by-case basis.

The Department is providing this notice on its Web site, as well as in its ‘‘Opportunity to Request Administrative Review’’ notices, so that interested parties will be aware of the manner in
