BILLING CODE 6820-EP-P

GENERAL SERVICES ADMINISTRATION

[Notice—FTR—2013—04; Docket No. 2013—0002; Sequence 25]

Maximum Per Diem Rates for the Continental United States (CONUS)

AGENCY: Office of Government-wide Policy (OGP), General Services Administration (GSA).

ACTION: Notice of GSA Per Diem Bulletin FTR 14-01, Fiscal Year (FY) 2014 Continental United States (CONUS) per diem rates.

SUMMARY: The General Services Administration's (GSA) Fiscal Year (FY) 2014 per diem review has resulted in lodging and meal allowance changes for certain locations within the Continental United States (CONUS) to provide for reimbursement of Federal employees' expenses covered by per diem. The standard lodging per diem rate will increase to \$83. The meals and incidental expense tiers remain unchanged for FY 2014 and range from \$46-\$71. GSA identified two new non-standard areas (NSAs): Big Spring, TX (Howard County); and Pearsall, TX (Frio, La Salle, and Medina Counties). The City of Hershey, PA, is now a separate NSA from Harrisburg, PA. In addition, Pasco, WA (Franklin County) and Richland, WA (Benton County) have been merged into a single NSA. Finally, Hendry County, FL is now included with the Palm Beach County, FL NSA.

The CONUS per diem rates prescribed in Bulletin 14-01 may be found at www.gsa.gov/perdiem. GSA bases the

lodging rates on the average daily rate that the lodging industry reports to an independent organization. If a lodging rate or a per diem rate is insufficient to meet necessary expenses in any given location, Federal executive agencies can request that GSA review that location. Please review numbers five and six of GSA's per diem Frequently Asked Questions at (www.gsa.gov/perdiemfaqs) for more information on the special review process.

In addition, the Federal Travel Regulation allows for actual expense reimbursement as provided in §§ 301-11.300 through 301-11.306.

DATES: This notice is effective September 5, 2013.

Applicability Date: Travel performed on or after October 1, 2013 through September 30, 2014.

FOR FURTHER INFORMATION CONTACT: For clarification of content, contact Ms. Jill Denning, Office of Government-wide Policy, Office of Asset and Transportation Management, at 202-208-7642, or by email at travelpolicy@gsa.gov. Please cite Notice of GSA Per Diem Bulletin FTR 14-01.

SUPPLEMENTARY INFORMATION:

Background: GSA issues and publishes the CONUS per diem rates, formerly published in Appendix A to 41 CFR Chapter 301, solely on the Internet at www.gsa.gov/perdiem. This process, implemented in 2003, ensures more timely changes in per diem rates established by GSA for Federal employees on official travel within CONUS. Notices published periodically in the **Federal Register**, such as this one, now constitute the only notification of revisions in CONUS per diem rates to agencies.

Dated: August 30, 2013.

Craig J. Flynn,

Director, Travel and Relocation Policy, Office of Government-wide Policy.

BILLING CODE 6820-14-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Sole Source Cooperative Agreement Award to the National Association of County and City Health Officials (NACCHO)

AGENCY: Office of Policy and Planning, Assistant Secretary for Preparedness and Response (ASPR), Department of Health and Human Services (HHS).

ACTION: Notification of a Sole Source Cooperative Agreement Award to the National Association of County and City Health Officials (NACCHO) for a grant

titled: "Technical Assistance to Obtain Local Health Department and Community Input for National Health Security-related Activities".

Statutory Authority: Public Health Service Act, Section 1703(a), 42 U.S.C. 300u-2(a).

Estimated Amount of Award: \$1,500,000 USD.

Project Period: September 30, 2013 to September 29, 2016.

SUMMARY: ASPR requires collaboration with local health departments and officials to ensure that local governments, communities, private sector entities, non-governmental organizations, academia, and individuals can optimally coordinate their respective national health security roles and responsibilities to achieve community health resilience and strengthen health care, public health, and emergency management systems. This project aims to improve collaboration between ASPR and the local health departments (LHDs) to enhance national health security, foster community health resilience, and strengthen health care, public health, and emergency management systems.

One of the overarching goals of both the National Health Security Strategy (2009) and the ASPR Strategic Plan 2011-2015 is to build community health resilience. ASPR seeks to partner with LHDs and health officials which play a critical role in building community health resilience by employing and evaluating localized public health strategies, such as preparing local communities to withstand and recover from public health emergencies and disasters, and engaging local health departments and health care organizations to build healthcare coalitions. The project will foster better approaches for building community health resilience.

LHDs and health officials are intimately familiar with the communities and populations that they serve and are an essential partner in carrying out the mission of ASPR. ASPR seeks to engage LHDs and health officials as well as other appropriate local stakeholders in bi-directional communications to evaluate the effectiveness of, and ensure that, ASPR's strategies, policies, and programmatic activities are informed by and support the needs of local communities. The project will foster collaboration with local health officials to achieve, for example, national health security and strengthen local emergency preparedness, response, and recovery systems and capabilities, and build

well-functioning healthcare coalitions, among other activities.

ASPR seeks to partner with LHDs and local communities which frequently prepare for, respond to, and recover from localized emergency incidents and to identify valuable lessons and promising practices to collect and share these practices with other LHDs and communities. This project will capture lessons learned and promising practices from local communities and share them more widely.

Justification: The National Association of County and City Health Officials (NACCHO) is the national nonprofit organization representing all local and tribal health officials from across the country. Members are elected by their peers, and include ex officio members representing the National Association of Counties, of which NACCHO is an affiliate, and the U.S. Conference of Mayors. NACCHO advocates on the behalf of county and city health departments by providing Congressional testimony, submitting letters to the Administration, and endorsing proposed legislation.

NACCHO has demonstrated experience establishing partnerships with both traditional and non-traditional organizations to impact both county and city public health departments and the broader public health system.

NACCHO's existing network of health officials will provide ASPR with the unique ability to collaborate on federal programs and actions that could impact the preparation for, response to or recovery from emergencies and disasters impacting public health and health care.

Additional Information: The agency program contact is Lisa Kaplowitz, who can be contacted by phone at (202) 202-2882 or via email at Lisa.Kaplowitz@hhs.gov.

Dated: August 28, 2013.

Nicole Lurie,

Assistant Secretary for Preparedness and Response.

BILLING CODE 4150-37-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Sole Source Cooperative Agreement Award to the Association for State and Territorial Health Officials (ASTHO)

AGENCY: Office of Policy and Planning, Assistant Secretary for Preparedness and Response (ASPR), Department of Health and Human Services (HHS).

ACTION: Notification of a Sole Source Cooperative Agreement Award to the

Association for State and Territorial Health Officials (ASTHO) for a grant titled: "Technical Assistance to Obtain State and Territorial Health Department Input for National Health Security-related Activities".

Statutory Authority: Public Health Service Act, Section 1703(a), 42 U.S.C. Section 300u-2(a).

Estimated Amount of Award: \$1,500,000 USD.

Project Period: September 30, 2013 to September 29, 2016.

SUMMARY: ASPR requires collaboration with state and territorial health departments and officials to ensure that state and local governments, communities, private sector entities, non-governmental organizations, academia, and individuals can optimally coordinate their respective national health security roles and responsibilities to achieve community health resilience and strengthen health care, public health, and emergency management systems. This project aims to improve collaboration between ASPR and the state health departments (SHDs) to enhance national health security, foster community health resilience, and strengthen health care, public health, and emergency management systems. One of the overarching goals of both the National Health Security Strategy (2009) and the ASPR Strategic Plan 2011-2015 is to build community health resilience. ASPR seeks to partner with SHDs and territorial health officials, which play a critical role in building community health resilience by employing and evaluating public health strategies such as preparing local communities to withstand and recover from public health emergencies and disasters, and engaging health care organizations to build healthcare coalitions. The project will foster better approaches for building community health resilience.

SHDs and territorial health officials are intimately familiar with the communities and populations that they serve and are an essential partner in carrying out the mission of ASPR. ASPR seeks to engage SHDs and health officials as well as other appropriate stakeholders in bi-directional communications to evaluate the effectiveness of, and ensure that, ASPR's strategies, policies, and programmatic activities are informed by and support the needs of states, territories, and local communities. The project will foster collaboration with state health officials to achieve, for example, national health security and strengthen emergency preparedness, response, and recovery systems and capabilities, and build

well-functioning healthcare coalitions, among other activities.

ASPR seeks to partner with SHDs and territorial health officials and local communities which frequently prepare for, respond to, and recover from emergency incidents and to identify valuable lessons learned and promising practices to collect and share these practices with other SHDs and communities. This project will capture lessons and promising practices and share them more widely.

Justification: The Association for State and Territorial Health Officials (ASTHO) is the only national nonprofit membership organization that includes membership representation from every state and local public health agency in the United States (U.S.), the U.S. Territories, the District of Columbia, and over 100,000 public health professionals employed by these agencies. ASTHO members, the chief health officials of these jurisdictions, formulate and influence sound public health policy and ensure excellence in state-based public health practice. The ASTHO organization has the unique ability to represent the perspectives of all the state and territorial health officials across the nation.

Additional Information: The agency program contact is Lisa Kaplowitz, who can be contacted by phone at (202) 202-2882 or via email at Lisa.Kaplowitz@hhs.gov.

Dated: August 28, 2013.

Nicole Lurie,

Assistant Secretary for Preparedness and Response.
