examiners verify compliance with this recordkeeping requirement during examinations. The recordkeeping information gathered during the examination process informs examiners about the safety and soundness of the financial institution’s funding and liquidity risk management practices.

The NCUA requests that you send your comments on this collection to the location listed in the addresses section. Your comments should address: (a) The necessity of the information collection for the proper performance of NCUA, including whether the information will have practical utility; (b) the accuracy of our estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) ways we could enhance the quality, utility, and clarity of the information to be collected; and (d) ways we could minimize the burden of the collection of the information on the respondents such as through the use of automated collection techniques or other forms of information technology. It is NCUA’s policy to make all comments available to the public for review.

II. Data

Title: Interagency Policy Statement on Funding and Liquidity Risk Management.

OMB Number: 3133–0180. Form Number: None. Type of Review: Reinstatement, without change, of a previously approved collection.

Description: The agencies have identified two sections of the policy statement that fall under the definition of an information collection. Section 14 states that institutions should consider liquidity costs, benefits, and risks in strategic planning and budgeting processes. Section 20 requires that liquidity risk reports provide aggregate information with sufficient supporting detail to enable management to assess the sensitivity of the institution to changes in market conditions, its own financial performance, and other important risk factors.

The documentation specified in the Guidance is maintained by each institution; therefore, it is not collected or published by the National Credit Union Administration Board. These recordkeeping requirements are documented on occasion. Credit union

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978 (Pub. L. 95–541)

AGENCY: National Science Foundation. ACTION: Notice of Permit Applications Received under the Antarctic Conservation Act of 1978, Public Law 95–541.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 Part 671 of the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by October 7, 2013. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755, Division of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT: Adrian Dahood, ACA Permit Officer, at the above address or ACApermits@nsf.gov or (703) 292–7149.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95–541), as amended by the Antarctica, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas a requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.
Application Details

Activity for Which Permit Is Requested
Waste; The applicants wish to fly a small, battery operated, remotely controlled copter equipped with a camera to take scenic photos of the Antarctic. The copter would not be flown over concentrations of birds or mammals or over Antarctic Specially Protected Areas. The copter would only be flown by Thomas Kokta who has trained for more than 40 hours using the copter. Several measures would be taken to prevent against loss of the copter including painting the copter a highly visible color, only flying it when the wind is calm, flying the copter for only 10 minutes at a time to preserve battery life, and ensuring that the separation between the operator and copter does not exceed its “operational range” of 500 meters. The applicants are seeking a Waste Permit to cover any accidental releases that may result from flying the copter.

Location
Western Antarctic Peninsula Region.

Dates
November 1, 2013 to December 31, 2013.

Nadene G. Kennedy,
Polar Coordination Specialist, Division of Polar Programs.

NATIONAL SCIENCE FOUNDATION

Proposal Review: Notice of Meetings
In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation (NSF) announces its intent to hold proposal review meetings throughout the year. The purpose of these meetings is to provide advice and recommendations concerning proposals submitted to the NSF for financial support. The agenda for each of these meetings is to review and evaluate proposals as part of the selection process for awards. The review and evaluation may also include assessment of the progress of awarded proposals. The majority of these meetings will take place at NSF, 4201 Wilson Blvd., Arlington, Virginia 22230. These meetings will be closed to the public. The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552(b)(4) and (6) of the Government in the Sunshine Act. NSF will continue to review the agenda and merits of each meeting for overall compliance of the Federal Advisory Committee Act.

These closed proposal review meetings will not be announced on an individual basis in the Federal Register. NSF intends to publish a notice similar to this on a quarterly basis. For an advance listing of the closed proposal review meetings that include the names of the proposal review panel and the time, date, place, and any information on changes, corrections, or cancellations, please visit the NSF Web site: http://www.nsf.gov/events/ This information may also be requested by telephoning, 703/292–8182.

Dated: August 30, 2013.

Susanne Bolton,
Committee Management Officer.

The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Application Details
1. Applicant
Andrew Klein,
Department of Geography, Texas A&M University, College Station, Texas.

Activity for Which Permit is Requested
ASPA; This permit would allow entry to a number of ASPAs in the vicinities of McMurdo Station and Palmer Station for the purpose of collecting soil and marine sediment samples. The samples would be taken as part of the ongoing effort to monitor the spatial scale of human impacts in Antarctica. Samples taken near Palmer Station will be compared with those taken during the Bahia Pariso spill, which occurred near Palmer Station in 1989. Sampling sites would be situated to avoid disturbing native birds and mammals.

Location
ASPA 113 Litchfield Island; ASPA 116 New College Valley; ASPA 124 Cape Crozier; ASPA 131 Canada Glacier; ASPA 139 Biscoe Point; ASPA 155 Cape Evans; ASPA 157 Backdoor Bay; ASPA 158 Hut Point; ASPA 172 Lower Taylor Glacier and Blood Falls; ASMA 2 McMurdo Dry Valleys; ASMA 7 Southwest Anvers Island and Palmer Basin.

Dated: November 12, 2013 to April 30, 2017.

Nadene G. Kennedy,
Polar Coordination Specialist, Division of Polar Programs.
