approved abbreviated N–MHSS (i.e., N–MHSS-Locator) survey instrument, and the previously approved 2010 full-scale N–MHSS (OMB No. 0930–0119) to accommodate two related N–MHSS activities:

(1) collection of information from the total N–MHSS universe of mental health treatment facilities during 2014, 2015, and 2016; and

(2) collection of information on newly identified facilities throughout the year, as they are identified, so that new facilities can quickly be added to the online Locator.

The survey mode for both data collection activities will be web with telephone follow-up.

The database resulting from the N–MHSS will be used to update SAMHSA’s online Behavioral Health Treatment Services Locator and to produce a national directory of mental health facilities on compact disk (CD), both for use by the general public, behavioral health professionals, and treatment service providers. In addition, a data file derived from the survey will be used to produce a summary report providing national and state-level data.

The report and a public-use data file will be used by researchers, mental health professionals, State governments, the U.S. Congress, and the general public.

The request for OMB approval will include a request to conduct the full-scale N–MHSS in 2014 and 2016 and an abbreviated N–MHSS-Locator survey in 2015.

The following table summarizes the estimated annual response burden for the N–MHSS:

<table>
<thead>
<tr>
<th>Type of respondent</th>
<th>Number of respondents</th>
<th>Responses per respondent</th>
<th>Average hours per response</th>
<th>Total burden hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Facilities in full-scale N–MHSS universe in 2014 and 2016</td>
<td>17,000</td>
<td>1</td>
<td>0.75</td>
<td>12,750</td>
</tr>
<tr>
<td>Newly identified facilities in Between-Survey Update in 2014, 2015, and 2016</td>
<td>1,700</td>
<td>1</td>
<td>0.42</td>
<td>714</td>
</tr>
<tr>
<td>Facilities in N–MHSS-Locator Survey universe in 2015</td>
<td>17,000</td>
<td>1</td>
<td>0.42</td>
<td>7,140</td>
</tr>
<tr>
<td>Average Annual Total</td>
<td>18,700</td>
<td>1</td>

Quest Diagnostics Incorporated, 8401 Fallbrook Ave., West Hills, CA 91304, 818–737–6370 (Formerly: SmithKline Beecham Clinical Laboratories).

Redwood Toxicology Laboratory, 3650 Westwind Blvd., Santa Rosa, CA 95403, 707–540–4434.

Southend Medical Foundation, Inc., 530 N. Lafayette Blvd., South Bend, IN 46601, 574–234–4176 x1276.

STERLING Reference Laboratories, 2617 East L Street, Tacoma, WA 98421, 800–442–0438.

Toxicology & Drug Monitoring Laboratory, University of Missouri Hospital & Clinics, 301 Business Loop 70 West, Suite 208, Columbia, MO 65203, 573–882–1273.

US Army Forensic Toxicology Drug Testing Laboratory, 2490 Wilson St., Fort George G. Meade, MD 20755–5235, 301–677–7085.

The following laboratory has voluntarily withdrawn from the NLCP, effective date September 1, 2013:

Quest Diagnostics Clinical Laboratories d/b/a Advanced Toxicology Network, 3560 Air Center Cove, Suite 101, Memphis, TN 38118, 901–794–5770/888–290–1150 (Formerly: Advanced Toxicology Network).

* The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. HHS, with the HHS’ NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (Federal Register, July 16, 1996) as meeting the minimum standards of the Mandatory Guidelines published in the Federal Register on April 30, 2010 (75 FR 22809). After receiving DOT certification, the laboratory will be included in the monthly list of HHS-certified laboratories and participate in the NLCP certification maintenance program.

Janine Denis Cook, Chemist, Division of Workplace Programs, Center for Substance Abuse Prevention, SAMHSA.
